

Notre Dame Academy

Curriculum Guide

2023–2024

The information provided in this Curriculum Guide is designed to acquaint students and parents with the various courses offered at Notre Dame Academy. It is very important that the student works with her academic counselor to plan a program of studies that balances her abilities and interests while meeting the requirements for graduation. This guide is published online initially in time for students to make course requests for the next school year. Notre Dame Academy reserves the right to update this Curriculum Guide as needed to keep the information current as the year progresses.

GENERAL INFORMATION

Twenty-six credits are required for graduation from Notre Dame Academy. Completion of this curriculum meets or exceeds the Pre-College Curriculum required by the Commonwealth of Kentucky for admission to public universities.

Religion	4	credits
English	4	credits
Mathematics (*Please see the note below.)	4	credits
Science	3	credits
History and Social Studies	3	credits
World Language	2	credits
Visual and Performing Arts	1	credit
Personal Finance (**Please see the note below).....	1/2	credit
Technology	1/2	credit
Health	1/2	credit
Physical Education	1/2	credit
Electives.....	3	credits

(*The state mathematics requirement for the Pre-College Curriculum requires the completion of the core content mathematics standards and that “Mathematics shall be taken each year of high school.” A senior must take a mathematics course regardless of whether she may have doubled up in math as a sophomore or taken Algebra 1 Grade 8 Honors and have already earned 4 mathematics credits prior to her senior year.)

(**Beginning with the class of 2024, Kentucky has added a graduation requirement in financial literacy. Therefore, the class of 2024 and beyond will have a maximum of 3 elective credits.)

Electives offered are determined by student interest. Some of the courses in this guide may not be taught in a given year because of insufficient enrollment.

Courses are offered on three levels of difficulty: college preparatory, honors, and advanced placement/dual credit/college. Academic departments recommend course levels for the required classes that in their professional judgment are appropriate for each student. Students are encouraged to select elective courses according to their ability and interest.

College preparatory level courses provide a solid educational foundation for higher education. The majority of students study at this level. These classes are identified in this curriculum guide as “level

3” and indicated by course numbers ending in 3. (Please note: Notre Dame Academy does not offer “level 1” or “level 2” general courses. Course numbers ending in 0, 1, or 2 are reserved for administrative use on transcripts to indicate various courses not included in GPA calculations such as transfer students who have earned credit through pass/fail courses.)

Honors level courses involve higher academic standards and a greater workload than college preparatory courses. These classes are identified in this curriculum guide as “level 4” and indicated by course numbers ending in 4.

Advanced Placement (AP) or college level dual credit courses provide the opportunity to earn college credit while remaining enrolled in high school. These courses are for students who excel academically. Students must be invited by the respective department to be enrolled in these courses. An increasing number of courses may be taken for dual credit as part of Thomas More University’s dual credit program <https://www.thomasmore.edu/admissions/high-school-students-dual-credit-program/> or similar program sponsored by other universities. Dual credit college level courses are defined by the Kentucky Education Department as the student taking both the high school course and the companion college course simultaneously while in high school. To qualify as dual credit, students must enroll in the companion college course. If the student does not enroll in the college course, she will be transferred into the alternate level 4, honors, course at Notre Dame Academy. Some AP courses also offer a dual credit option. Since they are level 5 courses by virtue of being AP, students will remain in the Advanced Placement course even if they decline the dual credit option. Advanced Placement (AP) and dual credit courses are identified in this curriculum guide as “level 5” and indicated by course numbers ending in 5.

AP Courses Currently Offered At Notre Dame Academy

AP Biology	AP Physics 1
AP Calculus AB	AP Physics 2
AP Computer Science Principles	AP Precalculus
AP English Language & Composition	AP Spanish Language
AP English Literature & Composition	AP Spanish Literature
AP Environmental Science	AP Statistics
AP European History	AP Studio Art
AP French Language	AP U.S. History
AP Music Theory	AP World History

Dual Credit Courses Currently Offered At Notre Dame Academy

AP European History as Dual Credit through Thomas More University
AP Physics 1 as Dual Credit through Thomas More University
AP Physics 2 as Dual Credit through Thomas More University
DC Chemistry–Dual Credit through Thomas More University
DC Engineering Foundations–Dual Credit through the University of Cincinnati
DC Latin 3–Dual Credit through Thomas More University
DC Latin 4–Dual Credit through Thomas More University
DC Spanish 4– Dual Credit through Thomas More University

ASSESSMENT OF ACADEMIC PROGRESS

Teachers at Notre Dame Academy use a variety of methods in assessing a student’s academic progress. Teachers provide an explanation of their grading process in the course description in PowerSchool and/or in the course syllabus. Students should note this and maintain a record of their grades. The student’s progress is reported to the parents online through the PowerSchool application linked from Resources tab on NDA’s web page. Parents and students are encouraged to check regularly both their grade and attendance information available as it is continually being updated. Quarterly report cards are emailed through PowerSchool. Printed report cards are sent home after the second and fourth quarters. The final grade for a course is calculated from the quarter grades (87.5%) and exam grade(s) (12.5%) and appears under the heading “F1” on report cards and PowerSchool pages. A minimum final grade percentage of 60 is required to earn credit for a class at NDA.

GRADE POINT AVERAGES (GPA)

The Notre Dame Academy Grade Point Average

Colleges and universities consider GPA when evaluating the admission and scholarship applications of students. Notre Dame Academy’s academic records include both a yearly and a cumulative GPA calculation that is based on a four-point scale. Extra weight is added in the GPA calculations for students who take either level 4 (honors classes) or level 5 (AP/college classes). The GPA points that are the basis of these calculations are assigned to the current/final average grade ranges according to the scales that follow:

NDA GPA Points Scale for Level 3

93–100%.....	4.00
90–92%.....	3.84
87–89%.....	3.67
83–86%.....	3.33
80–82%.....	3.00
77–79%.....	2.67
73–76%.....	2.33
70–72%.....	2.00
67–69%.....	1.67
63–66%.....	1.33
60–62%.....	1.00
0–59%.....	0.00

NDA GPA Points Scale for Level 4

93–100%	4.50
90–92%	4.34
87–89%	4.17
83–86%	3.83
80–82%	3.50
77–79%	3.17
73–76%	2.83
70–72%	2.50
67–69%	2.17
63–66%	1.83
60–62%	1.50
0–59%	0.00

NDA GPA Points Scale for Level 5

93–100%.....	5.00
90–92%.....	4.84
87–89%.....	4.67
83–86%.....	4.33
80–82%.....	4.00
77–79%.....	3.67
73–76%.....	3.33
70–72%.....	3.00
67–69%.....	2.67
63–66%.....	2.33
60–62%.....	2.00
0–59%.....	0.00

The KEES Grade Point Average

The Kentucky Educational Excellence Scholarship (KEES) program awards scholarships in varying amounts based in large part on a student’s GPA. The KEES program requires that participating schools use a four-point scale for the GPA, but does make an exception to allow schools to give added weight in the calculation for Advanced Placement (AP) and dual credit classes. The KEES regulations require that for a course to receive this added weight it must be a registered AP class or meet the qualification as a dual credit course where the student is enrolled in the high school and college course simultaneously [KRS 158.007]. Note, therefore, that students who have taken honors and/or college level classes other than AP or Dual Credit will have a lower KEES GPA reported than the Notre Dame Academy GPA. The KEES GPA is reported to the state program officials at the end of the school year and will appear on the fourth quarter report card. Please note that this scale does not allow for gradations between the whole number GPA points assigned to the grade ranges.

KEES GPA Points Scale for Level 3, 4 and non-AP/Dual Credit level 5 Courses

90–100%.....	4.00
80–89%.....	3.00
70–79%.....	2.00
60–69%.....	1.00
0–59%.....	0.00

KEES GPA Points Scale for AP and Dual Credit Courses

90–100%	5.00
80–89%	4.00
70–79%	3.00
60–69%	2.00
0–59%	1.00

Both the NDA and the KEES GPA grade calculations are obtained by multiplying the GPA points for each class times the Potential Credit for each class as shown on the report card. The sum of those answers is then divided by the sum of the potential credits.

Grading Scale Description

90–100:	Represents exceptional mastery of the material
80–89:	Above average work
70–79:	Average work expected in a college preparatory school
60–69:	Below average work
Below 60:	Failure to demonstrate competency in the subject or to fulfill the course requirements
Incomplete:	Only for exceptional reasons is an "I" issued for a quarter.
Pass/Fail:	The pass/fail grade is limited to enrichment courses. A grade of “P” earns credit towards graduation but is not included in a student’s GPA or weighted scholastic mark average.

WEIGHTED SCHOLASTIC MARK AND ACADEMIC HONORS

Notre Dame Academy uses the academic levels of the different courses as a way of encouraging students to match their God given intellectual talents with appropriate course content. A weighted scholastic mark that reflects the degree of difficulty of the course is used in determining various academic honors at Notre Dame Academy rather than the course percentage grade or GPA. This rewards students who challenge themselves by taking more difficult classes. Level 5 (advanced placement and dual credit) courses carry a weighted scholastic mark that is a multiple of 1.1 times the course semester grades of 60 or above. Level 4 (honors) courses carry a weighted scholastic mark that is a multiple of 1.05 times the course semester grades of 60 or above. Level 3 courses carry a weighted scholastic mark equal to the course semester grade. Course semester grades are based upon the quarter grades and the exam grade for that semester. The determination of first and second honors is delayed for two weeks to allow students to finish any incomplete work. Students with any incomplete (I) grades beyond that time do not qualify for first or second honors.

First Honors: Students who have no incomplete grades and an average weighted scholastic mark for all their classes in a given semester of a 95 or above and no weighted scholastic mark below a 90 are awarded first honors for that semester.

Second Honors: Students who have no incomplete grades and an average weighted scholastic mark for all their classes in a given semester of an 85 or above and no weighted scholastic mark below an 80 are awarded second honors for that semester.

Grade Level Scholarships: Each year four grade level scholarships are awarded to students in the current freshmen, sophomore, and junior classes for the subsequent year. The two students in each of those grade levels with the highest overall average weighted scholastic marks automatically qualify for two of those scholarships. The remaining two scholarships at each grade level are awarded based on a faculty vote from among those students who meet the qualifications and apply.

National Honor Society (NHS): Juniors and seniors who have demonstrated outstanding academic leadership, character, and service at Notre Dame Academy and the community may be invited to become members of the National Honor Society with the privilege of wearing the gold cord symbolizing that honor at graduation. The weighted NDA Cumulative GPA is a very important criterion in determining membership in the National Honor Society.

Graduation Honors: Seniors are recognized for graduation academic honors based on their NDA cumulative grade point average. Seniors who have earned a NDA cumulative GPA of 4.0 or higher are recognized as graduating *Summa Cum Laude*. Those graduating with a NDA cumulative GPA of 3.75 up to 4.0 are recognized as graduating *Magna Cum Laude*. Those graduating with a NDA cumulative GPA of 3.5 up to 3.75 are recognized as graduating *Cum Laude*.

Valedictorian and Salutatorian: Although Notre Dame Academy does not publish a class rank for its students, it does recognize the top two graduating seniors as measured by their overall average weighted scholastic marks as the valedictorian and salutatorian of their class. The valedictorian is invited to speak at graduation and the salutatorian at the Baccalaureate Mass. To be considered for the honor of valedictorian or salutatorian, a student must be enrolled at Notre Dame Academy for a minimum of two complete academic years.

POLICIES FOR TRANSFER STUDENTS

Notre Dame Academy does not discriminate on the basis of race, color, or ethnic origin. Notre Dame Academy's mission and philosophy are intended to aid parents in providing a Catholic education for their daughters. The primary considerations for transfer admission to Notre Dame Academy are the prospective student's academic ability as measured by standardized test scores and current high school academic record. Space availability may also be a consideration.

Notre Dame Academy will honor any high school credits a student has received if it appears on a transcript from another high school or the student is able to document that the credit was earned in a high school class covering a high school curriculum in that subject. High school credits a student may earn before her freshman year will be included in her earned credits towards graduation and her NDA Cumulative GPA if requested by the student. Students must make this request at the time they enter NDA and that decision cannot be changed later. Consultation with the student's academic counselor is strongly advised when making this decision. Careful consideration should be given when making this decision to consider what impact the additional credits may have on the student's scheduling options and on the impact including such courses will have on the student's GPA. It is not always advantageous mathematically to include the credits earned in middle school as part of her NDA Cumulative GPA. Home school credits will be issued only if credit appears on a high school transcript.

Religion credits required for graduation may be waived for the transfer history years of students coming from non-diocesan schools.

Transfers occurring during the school year may have the current year's grades from their previous school included with grades earned at Notre Dame Academy, if practical, to determine course averages. Courses that cannot be continued at NDA will be evaluated by the counselors to determine if any credit can be awarded.

A transfer student may not repeat a course in which credit has already been issued unless she chooses to forfeit that credit. If a course is repeated, the grade earned at NDA will be the grade that appears on the transcript.

Grades that are transferred from another school will be converted to the NDA grade and GPA scales. Students will only receive honors or AP credit if the course is clearly indicated as such on their transcript. International Baccalaureate (IB) courses will receive honors credit. Credits earned through remedial summer school will not be included in the GPA.

Situations that are not covered by these policies will be evaluated on an individual basis.

POLICY FOR ADDITIONAL COURSE OFFERINGS

There may be times when a student wants to take a course for Notre Dame Academy credit that is not offered in the *Curriculum Guide*. This may be in order to recover lost credit, resolve a scheduling conflict, take advanced courses or fulfill an interest in particular course content. The student must apply to take all such courses through her academic counselor and obtain the approval of the administration prior to beginning the course. All coursework must be completed within an agreed-upon time frame. Any financial obligations involved in taking the course are the responsibility of the student. Please refer to the “Assessment of Academic Progress” and “Weighted Scholastic Mark and Academic Honors” sections of this *Curriculum Guide* for additional details regarding how these courses will be included in the GPA and Weighted Scholastic Mark calculations.

Generally such a course falls into one of four categories:

Credit Recovery Course

In addition to the traditional summer school, a variety of methods are now available for students to recover credit for courses that they did not pass while taking them at Notre Dame Academy. Students earn credit for such courses upon successful completion and the grade for the credit recovery course will appear on a student’s transcript. However, the grade will not be included in either the student’s GPA or Weighted Scholastic Mark calculations.

Online Course

Many subjects not offered in the Notre Dame Academy Curriculum Guide are now available via the Internet. Grades for online high school coursework will be included in a student’s GPA calculation but will not be included in the Weighted Scholastic Mark calculation. GPAs for online courses normally are calculated using the Level 3, College Preparatory GPA scale. A student who takes an online course in consultation with her academic counselor to resolve a schedule conflict may request administration approval to take the course using the Level 4, Honors GPA scale or Level 5 AP and Dual Credit GPA scale depending on the nature of the online course.

Independent Study Course

Students may request to complete coursework under the supervision of a faculty member of Notre Dame Academy. Independent study application forms can be obtained in the main school office or from one of the school counselors. Grades for independent study coursework will be issued by the faculty member and will be included in both student’s GPA and the Weighted Scholastic Mark calculation. The GPA scale to be applied to an independent study course will depend on the nature of the work involved in the course and will be agreed upon prior to the start of the work on the course.

Internship

Notre Dame Academy encourages students to obtain experience in areas of career interest through internships. Internships are student initiated as a special form of independent study that may be taken either as a pass/fail option or for a grade. Successful completion of an internship earns a half credit. Students must complete the application and approval process for an independent study course (see above). The supervising faculty member may require additional details about a specific internship. In addition, students must submit the name and contact information for a person at the agency or business where they wish to intern. Students must complete 60 contact hours and receive a satisfactory performance review to fulfill the internship. Students choosing the pass/fail option complete the internship by submitting a reflection paper on their internship experience. The pass/fail option earns the half credit but is not included in the student's GPA calculations. Students who wish to receive a grade that will be included in their GPA and Weighted Scholastic Mark calculations complete the internship by writing a research paper related to the internship experience and completing a second project. The project will be agreed upon with the supervising faculty member. The supervising faculty member may also require a reflection journal or paper. Examples of such projects might include work produced for the agency or business during the contact hours or a media production about the internship presented to fellow students.

College Course

Many colleges offer opportunities for students to begin college coursework while still enrolled in high school either online or on campus. Grades for college coursework will be included in a student's GPA but will not be included in the Weighted Scholastic Mark calculation. GPAs for college courses are calculated using the Level 5, College/AP GPA scale. Students taking a typical college semester course will be awarded a half credit for such courses by Notre Dame Academy regardless of the number of credit hours awarded by the college. Students taking a companion two semester sequence of college courses (e.g. English 101 and 102) may have those college courses combined as a single one credit course on their NDA transcripts.

Notre Dame Academy Dual Credit Course Policy

Notre Dame Academy partners with regional universities for dual credit courses. The Kentucky Department of Education defines dual credit as a course which allows students to earn high school credit and college credit simultaneously at a discounted rate. This course may be taught on a college campus, a high school campus, or taken online, but it must be in conjunction with a college or university and Notre Dame Academy (NDA). These courses are for students who excel academically. Students must be approved by the respective department or academic counselor to be enrolled in these courses, must meet eligibility requirements set forth by the collegiate institutions, and complete the Dual Credit Policy and Procedure Contract.

Points of Consideration:

- Dual credit courses may have additional tuition and fees including but not limited to textbook fee(s) or other additional materials required for the course.
- Dual credit courses are the start of your college transcript and the grades earned will follow you to your postsecondary institution.
- Dual credit courses will be on your high school transcript and whatever grade you earn in the dual credit course will be added to your NDA Grade Point Average.
- All Kentucky resident dual credit students taking a dual credit class through a Kentucky university have the opportunity to receive tuition reimbursement for one dual credit class (up to 3 credit hours) per semester through the Dual Credit KHEAA Scholarship (more information can be found at https://www.kheaa.com/website/kheaa/dual_credit?main=1).

- Asynchronous online courses are structured so that students do not have a designated time to be logged in for lectures, meaning students taking online courses need to be disciplined with time management and need to be able to work independently.
- Students may take an online or on campus dual credit course if NDA does not offer the course in-person or if the student has successfully completed the in-person course as a prerequisite. Online or on campus dual credit courses can be considered to resolve scheduling conflicts and must be approved by an academic counselor.
- All dual credit courses are on a 5.0 weighted GPA scale for both NDA's cumulative GPA scale and KEES GPA scale.
- You must earn a C or higher in order to continue to the second semester of a course through the university. For example, you must earn a C or higher in CHE 111 offered in the fall in order to progress to CHE 113 offered in the spring. If you earn a C- in a course in the first semester, you will not be permitted to continue with the second semester class. Student will continue in the same course at NDA but will no longer be eligible for the dual credit KEES GPA bonus.
- Students must be enrolled in at least 5 in person courses at NDA per semester.

Dual Credit University Partners

Thomas More University: Dual Credit Courses

In order to enroll in the TMU dual credit program, you must meet the following requirements:

- Be in good academic standing with a minimum cumulative 3.0 Unweighted GPA at the end of your Junior or Sophomore year.
- Currently enrolled as an 11th or 12th grader or enrolling as an 11th or 12th grader.
- There is not a minimum ACT requirement, however a certain score may be required for specific classes as a prerequisite.
- Students must complete the TMU Dual Credit application, the disclosure form built into the application, Notre Dame Academy's Dual Credit Policy and Procedure Contract, and let Mrs. Stanley know you are enrolling so she can send in your transcripts.

The TMU dual credit application and disclosure form can be found at

<https://www.thomasmore.edu/admissions/high-school-students-dual-credit-program/>. The TMU website will have more information to make an educated decision about whether dual credit through TMU is right for you. The grading policies, tuition fees, and course catalog can be accessed through this website.

Northern Kentucky University: School-Based Scholars Program

In order to enroll in the NKU School-Based Scholars (SBS) Program, you must meet the following requirements:

- Be in good academic standing with a minimum cumulative 3.0 Unweighted GPA at the end of your Junior or Sophomore year.
- Currently enrolled as an 11th or 12th grader or enrolling as an 11th or 12th grader.
- Meet any pre-requisite requirements for individual courses. Math and Sciences courses typically require specific ACT minimum subscores. Any requirements that high schools set in addition to the SBS program's requirements will be honored.
- Students must complete the NKU SBS application, disclosure form, Notre Dame Academy's Dual Credit Policy and Procedure Contract, and let Mrs. Stanley know you are enrolling so she can send your transcripts.

The SBS application and disclosure form can be found at

<https://inside.nku.edu/schoolbasedscholars/admissions.html>. The SBS website will have more information to make an educated decision about whether dual credit through NKU is right for you. The grading policies, tuition fees, and course catalog can be accessed through this website.

Gateway Community and Technical College: Dual Credit Courses

In order to enroll in the Gateway Community and Technical College Dual Credit Program, you must meet the following requirements:

- Be in good academic standing at the end of your Junior year or at the end of your Sophomore year with a minimum cumulative 2.0 Unweighted GPA for a Technical Course, 2.5 Unweighted GPA for a General Education Courses with no placement, 3.0 Unweighted GPA for a College Ready course, and a 3.2 Unweighted GPA for College Ready Algebra.
- Currently enrolled as an 11th or 12th grader or enrolling as an 11th or 12th grader.
- There is not a minimum ACT requirement, however a certain score may be required for specific classes.
- Students must complete the Gateway Community and Technical College Dual Credit application, disclosure form, Notre Dame Academy's Dual Credit Policy and Procedure Contract, and let Mrs. Stanley know you are enrolling so she can send your transcripts.

The Dual Credit Gateway application and disclosure form can be found at <https://gateway.kctcs.edu/dual-credit/index.aspx>. The Gateway Community and Technical College dual credit website will have more information to make an educated decision about whether dual credit through Gateway is right for you. The grading policies, tuition fees, and course catalog can be accessed through this website.

University of Cincinnati: Dual Credit Courses

In order to enroll in the University of Cincinnati Dual Enrollment Program, you must meet the following requirements:

- Students must meet one of the following criteria to be considered to take courses on campus or online with a UC faculty member.
 - 3.0 unweighted high school GPA
 - 2.75-2.99 unweighted high school GPA and
 - "B" grade or better in a least one high school English course and
 - "B" grade or better in a least one high school math course
 - ACT (18 ENGL/22 MATH) or SAT (480 EBRW/530 MATH)
- Students must meet one of the following criteria to be considered to take Dual Enrollment courses in their high school (only for high schools with which UC has a partnership).
 - 3.0 unweighted high school GPA
 - 2.75-2.99 unweighted high school GPA and
 - "B" grade or better in a relevant high school course
 - ACT (18 ENGL/22 MATH) or SAT (480 EBRW/530 MATH)
- Currently enrolled as an 11th or 12th grader or enrolling as an 11th or 12th grader.
- Students must complete the University of Cincinnati Dual Enrollment application, disclosure form, Notre Dame Academy's Dual Credit Policy and Procedure Contract, and let Mrs. Stanley know you are enrolling so she can send your transcripts. This application and paperwork must be completed in partnership with Mrs. Stanley.

The University of Cincinnati Dual Enrollment application and disclosure form can be found at <https://www.uc.edu/aas/ccp/requirements.html>. The University of Cincinnati dual enrollment website will have more information to make an educated decision about whether dual credit through UC is right for you. The grading policies, tuition fees, and course catalog can be accessed through this website. Please keep in mind that students taking dual enrollment courses taken through UC will not be eligible for the KHEAA Dual Credit Scholarship.

OVERVIEW OF COURSE OFFERINGS BY YEAR

FRESHMEN

Freshmen are first year students who apply and are accepted for high school courses. Notre Dame Academy may accept a student younger than 9th grade age after consultation with her parent/guardian(s) and her elementary school teachers. Because students enter Notre Dame Academy from many different grade schools, each with their own unique academic programs, placement in freshmen classes is made based on a number of factors. These include: entrance test scores, other standardized tests taken during grade school, recommendations made by the student’s grade school teachers, and interviews with the student and her parent/guardian(s). Students placed in the Algebra 2-Honors or Language 2-Honors classes must have department approval and have passed a qualifying test given in the spring prior to beginning their freshmen year in the fall. Students who completed the NDA/CCH 1214 Algebra 1 Grade 8-Honors course with a minimum grade of 82 may enroll in Algebra 2-Honors as freshmen. They are not eligible to take the Algebra 2 Honors qualifying test. Please see the course description for 1214 Algebra 1 Grade 8-Honors in the Math department listings for more details.

The normal course load for freshmen is seven credits.

<i>COURSE</i>	<i>CREDITS</i>	<i>COURSE</i>	<i>CREDITS</i>
Religion: Faith And Revelation	1	Science	1
An Introduction To Scripture and Who Is Christ?		Biology Honors (level 4) or Biology (level 3)	
Business and Technology	1/2	Health	1/2
Technology And Communication		Physical Education	1/2
English	1		
English 1-Honors (level 4) or English 1 (level 3)			
History And Social Studies	1/2		
World Geography			
World Language or Art 1 or	1		
Academic Foundations			
(All Language 1 courses are level 3. Language 2 courses are offered at the honors level 4) French 1, French 2-Honors or Latin 1, Latin 2-Honors or Spanish 1, Spanish 2-Honors or Art 1 or Academic Foundations			
Mathematics	1		
Algebra 2-Honors (Level 4) or Algebra 1-Honors (Level 4) or Algebra 1 (Level 3)			

Before/After School Electives

Fine Arts	
Band	1/2
Chorus	1/2
History and Social Studies	
Law And Justice	1
Science	
Science Research-Honors	1/2

Summer Electives

<i>COURSE</i>	<i>CREDITS</i>
Fine Arts	
Studio Art	1/2

SOPHOMORES

Sophomores are students who have earned from seven to fourteen credits.

The normal course load for sophomores is seven credits.

<i>COURSE</i>	<i>CREDITS</i>
Religion.....	1
The Mission Of Christ and Christ And The Church	
English	1
American Literature Honors (level 4) or American Literature (level 3)	
Fine Arts.....	1
Art 1, or Art 2 or History Of Rock And Roll or Theatre or Digital Media	
Counseling and Student Services Academic Strategies	1
<i>(This course may be required for some students.)</i>	
History and Social Studies	1
AP World History (upon invitation) or World Civilizations-Honors (level 4) or World Civilizations (level 3)	
Language.....	1
<i>(Typically students choose the language that continues from their freshman year of study. All Language 1 courses are level 3. Language 2 and 3 courses may be offered at either level 4 or level 3)</i>	
French 1, French 2, French 3 or Latin 1, Latin 2, Latin 3 or Spanish 1, Spanish 2, Spanish 3	
Mathematics.....	1
Geometry-Honors (level 4) or Geometry (level 3) or AP Statistics (upon invitation) <i>(The Mathematics department typically will invite some students who showed exceptional ability in Algebra 1 to take two mathematics courses their sophomore year. Students who do so take Geometry- Honors and Algebra 2-Honors and postpone their Arts credit until a later year.)</i>	
Science	1
Chemistry-Honors (level 4) or Chemistry (level 3)	

HALF CREDIT ELECTIVES	
<i>COURSE</i>	<i>CREDITS</i>
Fine Arts	
Choir	1/2
Piano Lab.....	1/2
Piano Lab S2	1/2
Public Speaking.....	1/2

Before/After School Electives

Fine Arts	
AP Music Theory (upon invitation) .	1/2
Band.....	1/2
<i>(Sophomores who completed Band as freshmen and who sign up for Band as sophomores will have fulfilled their fine arts requirement. They may elect to take Music Theory, Art 1, Chorus, History of Rock and Roll or Theatre during the school day. Or, they may consult with their academic counselor about choosing either a junior elective or a study hall.)</i>	
Chorus	1/2
History and Social Studies	
Law And Justice	1
Science	
Science Research-Honors	1/2

Summer Electives

<i>COURSE</i>	<i>CREDITS</i>
Fine Arts	
Studio Art	1/2

JUNIORS

Juniors are students who have earned from fourteen to twenty credits.

**The normal course load for juniors is six credits
due to the time required for the junior religion program.**

• **Required—Five Credits**¹ •

¹ Three credits of science are required for graduation. One of the science credits must be a lab science; credits must include both a life science and a physical science. The majority of students choose to complete those requirements in the junior year. However, the third science credit may be postponed until the senior year to allow more flexibility in the junior year for choosing electives. Students considering postponing their science credits must consult with their academic counselor. Choosing extra electives as a junior may limit a student's options to schedule their electives as a senior.

<i>COURSE</i>	<i>CREDITS</i>	<i>COURSE</i>	<i>CREDITS</i>

COURSE OFFERINGS BY DEPARTMENT

The core program required of each student and the electives offered on the various grade levels are listed below. It is recommended that a student become familiar with all the courses offered and plan her course of study based on her area of interest after high school. Also, she should familiarize herself with college requirements in the field of her choice. Students should seriously consider their course selections. Student course selections may not be changed after May 5th as class offerings and staffing decisions will have been made. Once a student begins a class she is expected to complete it.

Occasionally courses in this *Curriculum Guide* are accompanied by two different course numbers. These numbers exist for scheduling purposes. The courses in each of these cases are taught on the same level with comparable content regardless of which particular course number is assigned to the student.

BUSINESS-TECHNOLOGY DEPARTMENT

(A half credit in Technology And Communication is required)

Technology is multidisciplinary by its nature and offers digital tools in every department. In efforts to foster best practice teaching and learning, our goal is to weave technology tools and applications seamlessly in and out of courses, rather than teach isolated skills. This authentic approach allows teachers to provide students with the skills necessary for success in college and beyond. Learners take ownership of their learning by actively participating in the process with their teachers through the use ubiquitous technology. This approach to teaching and learning allows students to be imparted with the skills of learning to efficiently access, navigate, explore, apply, and synthesize information in our vast digital world.

Department Learner Goals: (ISTE Standards)

Students will develop skills in the following 6 categories:

- creativity and innovation
- communication and collaboration
- research and information fluency
- critical thinking, problem solving, and decision making
- digital citizenship
- technology operations and concepts

**1733 TECHNOLOGY AND - Grade 9 Level 3—¹/₂ Credit
COMMUNICATION**

Prerequisite: None

Technology And Communication is a required course for freshmen. The main goal of this course is to teach effective verbal, written, and visual communication skills utilizing technology. Students are introduced to the Google platform and cloud computing. Students learn about the various technology resources available at Notre Dame Academy and are taught how to use the library to conduct research. The course covers keyboarding skills, word processing and spreadsheet applications. Instruction includes the creation of multimedia presentations by using software applications programs to supplement the lessons. Presentation skills are a major component of the course. Students will utilize many applications such as music composition software and open source applications such as Prezi. Students learn to use technology to support collaboration and to demonstrate learning. Students will practice good digital citizenship and learn safe use of the Internet.

37423 PERSONAL FINANCE GR11 Grades 11, Level 3—¹/₂ Credit

Prerequisite: None

This course follows the same curriculum as the senior semester course, 4723 Personal Finance, listed below. This course, however, is taught all year long on Monday, Wednesday, and Friday wrapping around the religion service time allowing students to complete this graduation requirement as a junior.

3784 PUBLICATIONS 1 HONORS Grades 11, 12 Level 4—1 Credit

Prerequisite: 1733 Technology and Communication

This elective course provides formal journalism and publications training while producing various printed and digital communications for Notre Dame Academy. Students will learn best practices in reporting, writing, editing, design and production. Since variations of writing style are fundamental to publishing, solid writing skills are valuable, and students will work to improve those skills. This laboratory course is built on the use of various software programs in the publication process. This course will be responsible primarily for producing the NDA newspaper, *The Gavel*, and the yearbook, *Tapestry*, as well as specialty publications. Students at the honors level will be expected to initiate and produce more story ideas, as well as to write and maintain a blog.

3793 PUBLICATIONS 1 Grades 11, 12 Level 3—1 Credit

Prerequisite: 1733 Technology and Communication

The purpose of this elective course is to provide formal journalism and other publications training while producing various printed communications for Notre Dame Academy. Students will learn best practices in reporting, writing, editing, design and production. This laboratory course is built on the use of various software programs in the publication process. Since variations of writing style are fundamental to publishing, above-average writing skills are valuable. This course will be responsible primarily for producing the NDA newspaper, *The Gavel*, and the yearbook, *Tapestry*, as well as specialty publications as required.

4703 ENTREPRENEURSHIP..... Grades 11, 12Level 3—¹/₂ Credit

Prerequisite: None

This one semester class for juniors and seniors focuses on important topics related to owning and starting one's own business. Students will learn business law and ethics, cost accounting, leadership, related tax regulations, and management skills. A simulation of a business startup will illustrate these subjects. These topics are taught in the context of Catholic teaching on stewardship and vocation.

4713 BUSINESS PRINCIPLES AND APPLICATION Grades 11, 12 Level 3—¹/₂ Credit

Prerequisite: None

This one semester class for juniors and seniors offers an introduction to various business topics including, but not limited to, corporate and business organizational structures, accounting, financial reporting and analysis, careers in business, marketing and business. A stock market simulation is played in this class. These topics are taught in the context of Catholic teaching on stewardship and vocation.

4723 PERSONAL FINANCE Grades 12Level 3—¹/₂ Credit

Prerequisite: None

This required course is designed to educate the student in money management for personal finances. The goal is financial literacy in money, insurance, taxes, budgeting, and charitable giving. This course will also teach students to identify and prioritize their personal money management goals, develop personal spending and savings plans, comprehend the impact of time on the value of money, and understand the cost of using credit.

4784 PUBLICATIONS PRODUCTION-HONORS Grades 12 Level 4—¹/₂ Credit

Prerequisite: 3793 Publications 1

Publications Production is a one semester course designed for seniors who have taken 3793 Publications 1 and have an interest in continuing with their study of the publications process, but are unable to fit the year-long Publications 2 Honors course into their schedule. Students may request Publications Production for either the first or second semester. The course follows the content for Publications 2-Honors for the chosen semester.

4794 PUBLICATIONS 2-HONORS Grade 12 Level 4—1 Credit

Prerequisite: 3793 Publications 1

As second-year members of the Publications class, students participate in the regular production of school periodicals as a specific mode of written expression that demonstrates an advanced knowledge of the software and sense of responsibility as spokeswomen for Notre Dame Academy. The course emphasizes cooperative learning and collaborative effort, including the ability to plan and carry out the regular publication of a newspaper and yearbook. Decision-making and working toward a common goal following the total writing process from brainstorming through drafting, editing and revising, to actual publication are vital elements at this level. Publications 2 students assume leadership positions as they help initiate first year students into the publication process.

COUNSELING AND STUDENT SERVICES DEPARTMENT

(Credit requirement varies depending on placement.)

The Counseling And Student Services Department exists to provide academic, social, physical, emotional and vocational support to all students. The department collaborates with faculty and parents to address student needs and adolescent issues. Several opportunities for career exploration are provided over the four years. A Mentor Program is available to students who require additional support in any academic area. A resource teacher assists students with special academic needs.

Department Learner Goals:

Students will:

- Be able to learn effective study skills and various methods to assist the student in being organized and prepared for various high school courses.
- Explore test-taking strategies to help the student excel when taking an essay, multiple choice or short answer tests.
- Have lessons taught primarily in the English and Math courses reinforced and possible pre-teaching may occur to ensure that the student is able to effectively learn the material.
- Be taught to write a five-paragraph essay using various topics and research methods.
- Expand their vocabulary and increase their reading comprehension.
- Be empowered to take greater ownership of their education and seek out resources within the school and community.

1813 ACADEMIC FOUNDATIONS..... Grade 9..... Level 3—1 Credit

Prerequisite: Recommendation of previous school or parent and department recommendation

This course is offered to entering freshmen who have been selected to postpone their study of a foreign language in order to establish the skills needed to succeed in a college preparatory curriculum. The focus of the course is to reinforce skills applicable to all disciplines in all academic curricular areas. A strong emphasis will be placed on learning styles, applying critical reading strategies, and learning problem-solving skills.

2813 ACADEMIC STRATEGIES Grades 10Level 3—1 Credit

Prerequisite: Department recommendation.

This course is designed for students who may need extra help to have a successful start to the school year. Topics of the course include: time management, test taking preparation and strategies, study techniques, critical thinking in literature, vocabulary expansion, grammar review, reading comprehension and mathematical problem-solving and reasoning skills. Enrollment in this course will result in the postponement of a first year of a language or a fine arts credit for sophomores. Some students may be required to take this course upon recommendation of the Counseling and Student Services department.

3833 SUPPORT STRATEGIES Grade 11 Level 3— $\frac{1}{2}$ Credit

Prerequisite: 2813 Academic Strategies or department recommendation

This course will be held on Monday, Wednesday, and Fridays in place of study halls that are normally scheduled in conjunction with the Catholic Social Teaching class. Topics of the course include: time management, test taking preparation and strategies, study techniques, critical thinking in literature, vocabulary expansion, and reading comprehension. Some students may be required to take this course upon recommendation of the Counseling and Student Services department.

4823 PEER MENTORING Grades 11, 12 Level 3— $\frac{1}{2}$ Credit

Prerequisite: Department Recommendation

This course will allow students that are interested in mentoring and tutoring to use their knowledge and skills to assist other students in the school. Students in this class need to be reliable and have excellent leadership and organizational skills. This half credit course will require some classwork be done outside of the regular school hours. The student will require at least 60 contact hours of actual tutoring or work related to tutoring. Students will be required to meet with an Academic Counselor monthly, submit a quarterly log of hours and completion of a project each semester. This course is taught as a Pass/Fail course and is not included in the weighted scholastic mark or grade point average.

4863 SENIOR SUCCESS STRATEGIES Grade 12 Level 3— $\frac{1}{2}$ Credit

Prerequisite: Department Recommendation

This course will be held on Monday, Wednesday, and Fridays for a full year 1/2 credit. Topics of the course include: time management, test taking preparation and strategies, study techniques, critical thinking in literature, research and writing strategies, and college preparation. Some students may be required to take this course upon recommendation of the Counseling and Student Services department.

ENGLISH DEPARTMENT

(Four credits of English are required.)

The English Department offers an extensive program to help students become proficient in the use of the English language. The texts and themes chosen give the students an opportunity to share a variety of human experiences, develop their outlook and cultural standards, and help their appreciation of literature and perhaps contribute to it by their own writing. Considerable emphasis is placed on the development of English language skills, including grammar, usage, vocabulary, composition and research. Essays, based on various modes of discourse, poems, plays and short stories are part of the writing process and genre studied. Particular emphasis is placed on critical thinking skills as they apply to problem solving and taking standardized tests. All English courses are values-based, helping student readers to recognize and empathize with the human condition as encountered in literature.

Department Learner Goals:

Students will:

- Practice tolerance by participating in a values-based curriculum as an opportunity for spiritual growth, responsible leadership and community service.
- Practice the process of writing, particularly formal essay writing. They will participate in small group activities and learn to manage class workload and meet deadlines as they work toward a common goal.
- Demonstrate the ability to find relevance between events in literature and current events.
- Learn the modes of discourse and demonstrate awareness of both purpose and intended audience. In addition, they will demonstrate mastery of outlining skills.
- Demonstrate proficiency in the use of media resources. This will include conscientious use of the Internet for research, an understanding of what constitutes plagiarism as enhanced by the use of Turnitin.com, how to evaluate resources, effective and appropriate use of presentation software, and word processing skills as applied to writing as a process.
- Demonstrate awareness of social, cultural, religious, ethnic and economic issues by studying British, women's, world, and American literature and their respective canons.
- Foster their own lifelong love of learning and awareness of the value of self-expression through creative writing, the study of poetry and film, integration of the other arts with literature, grammar, vocabulary development, completion of summer reading assignments, and cross-curricular topic discussions.
- Employ critical thinking skills as well as reflect on and evaluate information in order to achieve a healthy balance in their personal lives. Journaling and writing to prompts, attending cultural events and outreach activities will nurture lifelong readership.

1104 ENGLISH 1-HONORS Grade 9 Level 4—1 Credit

Prerequisite: Completion of the assigned summer readings

This course follows the course summary for 1113,1123 English 1, with additional emphasis upon reading, class discussion and writing.

1113, 1123 ENGLISH 1 Grade 9 Level 3—1 Credit

Prerequisite: Completion of the assigned summer readings

This course focuses on the various literary genres, using an anthology, with a corresponding study of the vocabulary pertinent to selections read. The literature is supplemented with writing, including paragraph practice, two essays per quarter, and creative responses to literature. Annually selected supplementary readings are required. Reading comprehension, class discussion skills and college-preparatory composition comprise the balance of coursework.

2114 AMERICAN LITERATURE-HONORS.... Grade 10 Level 4—1 Credit

Prerequisite: Completion of the assigned summer readings, 1104/1113/1123 English 1 with above average scores

This course follows the course summary for 3123 American Literature, with additional emphasis upon reading, class discussion and writing. Critical thinking and advanced analysis of literature are stressed in this course.

2133 AMERICAN LITERATURE Grade 10 Level 3—1 Credit

Prerequisite: Completion of the assigned summer readings, 1104/1113/1123 English 1

This survey of American literature traces its development from the Native Americans to present time. Students use an anthology and outside readings for an understanding of American literary traditions. The student sharpens reading and writing skills to prepare her for advanced study and writes two full-length essays per quarter.

**31405 AP ENGLISH-
LITERATURE AND COMPOSITION** Grade 11 Level 5—1 Credit

Prerequisite: Completion of the assigned summer readings, 2104 English 2, department approval of self-nomination with sophomore English teacher's signature and parent signature

The Junior Advanced Placement course is for the student with above average reading and writing skills generally expected in introductory college courses in composition and literature. Students will study selections from British and Western literature in the context of their origins. Each unit profiles the literary and cultural aspects of particular eras, ranging from early Greek to modern times. Both the anthology and supplementary texts are used. Research is a critical part of the course work, as is style analysis, focused discussion and regular timed in-class essay writing. The Advanced Placement Test in Literature and Composition for college credits is optional but strongly encouraged.

3124 BRITISH LITERATURE-HONORS Grade 11 Level 4—1 Credit

Prerequisite: Completion of the assigned summer readings, 2114 American Literature Honors or 2133 American Literature with above average scores

This course follows the course summary for 3143 British Literature, with additional emphasis upon reading, class discussion and writing. Critical thinking and advanced analysis of literature are stressed in this course.

3143 BRITISH LITERATURE Grade 11 Level 3—1 Credit

Prerequisite: Completion of the assigned summer readings, 2114 American Literature Honors or 2133 American Literature

The four quarters present a survey of the major writers of British literature from the Anglo-Saxon period up to and including the twenty-first century as part of a comprehensive list of writers studied. Chaucer, Shakespeare, Milton, Pope, Shaw, Eliot, and Joyce are some of the contributors to the canon of British literary heritage. The wealth of literary genius that formed and developed British and American English is approached in relationship to contemporary times. Selected classics are integrated into each quarter's coursework. Since this course offers the traditional literary survey background for college-bound students, it includes critical analysis, essay writing, outside reading, and research skills. Two essays are required per quarter.

**41405 AP ENGLISH-
LANGUAGE AND COMPOSITION** Grade 12 Level 5—1 Credit

Prerequisite: Completion of the assigned summer readings, 34105 AP English Literature and Composition or 3114 American Literature and department recommendation

The senior Advanced Placement course is for the student with above average reading and writing skills generally expected in introductory college courses in composition and literature. AP English Language and Composition is an introductory college-level composition course. Students cultivate their understanding of writing and rhetorical arguments through reading, analyzing, and writing texts as they explore topics like rhetorical situation, claims and evidence, reasoning and organization, and style. The Advanced Placement Test in Language and Composition for college credits is optional but strongly encouraged.

41104 RESEARCH WRITING HONORS Grade 12 Level 4—¹/₂ Credit

Prerequisite: 3155 AP English Language, 3124 British Literature Honors or 3143 British Literature with above average scores

This course follows the course summary for 41103 Research Writing. The honors level course places additional emphasis upon research, writing and presentation skills. It will have higher expectations for critical thinking and advanced analysis of rhetorical strategies.

41103 RESEARCH WRITING Grade 12 Level 3—¹/₂ Credit

Prerequisite: None

This semester long course will focus on preparing the 12th grade student for writing at the college level and/or in the professional world. The course work will center on a full-length research paper, exposing the students to the conventions of both researching and composing longer academic papers. Focus will be on up-to-date research, writing and citation methods utilizing the MLA research format. Students will learn strategies for organizing a writing project and will hone critical thinking and reading skills. A hallmark of the course will be attention to writing processes as well as products. Other course writing may include college entrance and scholarship essays. Students will also learn and apply rhetorical strategies.

41363 CREATIVE WRITING-..... Grades 11, 12 Level 3—¹/₂ Credit
POETRY AND FICTION

Prerequisite: 2114 American Literature Honors or 2133 American Literature

In this introductory creative writing elective course focused on poetry and fiction, students will read and discuss exemplary works and build their own portfolios of poems, stories, and/or novel chapters. Students will produce first drafts, experiment with new writing techniques, revise their work, and discuss each student's writing in a constructive workshop format.

41223 MODERN LITERATURE Grade 12 Level 3—¹/₂ Credit

Prerequisite: None

Modern Literature is a senior level course that explores the literature of the twentieth century to the present. Students will become knowledgeable about literature that reflects the world in which they live through familiarization with a selection of fiction, nonfiction, drama, and/or poetry of the period. Students will examine the texts through literary criticism, literary theory, and nonfiction texts. Students will sharpen analysis and critical thinking skills and will use these skills in writing for various purposes and audiences.

41243 WOMEN IN LITERATURE—..... Grade 12 Level 4—¹/₂ Credit

Prerequisite: None

Women in Literature is a senior-level course for students who want to read compelling literature that focuses on the experiences of girls and women. Students will examine historical and contemporary novels, short stories, and poetry that express female voices from various cultures and social backgrounds. Students will develop reading and writing skills, participate in class discussions, and prepare topics for presentation.

41263 SCIENCE FICTION Grade 12 Level 3—¹/₂ Credit

Prerequisite: None

In this senior level semester long course students will explore the genre of science fiction through reading science fiction short stories and novels and viewing science fiction films. Students will examine the evolution of the science fiction genre including exploring the literary and social importance of science fiction through literary criticism, literary theory, and nonfiction texts. Students will discuss the social impact of literature, including science fiction's tendency to reflect, critique, and satirize popular culture and society's concerns. Students will sharpen analysis and critical thinking skills and they will use these skills in conducting research and in producing writing for various purposes and audiences.

41283 SHORT STORIES Grade 12 Level 3—¹/₂ Credit

Prerequisite: None

In this senior level semester long course students will explore the genre of short stories through reading short stories and viewing films adapted from short stories. Readings will include a variety of authors and topics across cultures and time. Students will examine the impact of the short story genre through literary criticism, literary theory, and nonfiction texts. Students will sharpen analysis and critical thinking skills and will use these skills in conducting research and in producing writing for various purposes and audiences. This class will include the writing of a short story using the common elements of a short story.

FINE ARTS DEPARTMENT

(One credit in Fine Arts is required.)

Department Learner Goals:

Students will:

- Recognize that all talents are gifts from God and should be shared with the greater community.
- Work on individual and group projects pertaining to the various fine arts disciplines.
- Serve the community through performances and exhibitions.
- Adhere to the NDA standard of excellence in their artistic pursuits.
- Learn to appreciate artistic expressions of peoples from different time periods and cultures.
- Develop an appreciation of the Arts and Humanities in order to foster a lifelong love of learning and an awareness of the value of self-expression.

Art

The Art program offers a variety of courses designed to develop the creativity of the student through training in the basic skills and in experiencing the use of a variety of art media. Various artists, styles and cultures will be studied.

2603 ART 1..... Grades 9, 10, 11, 12 Level 3—1 Credit

Prerequisite: None

This course aims to free the student from inhibitions, to develop a capacity for understanding and then respond through creative expression that includes drawing, painting, sculpture and mixed media. The comparative study of Art History is the general background for this study. Basic technical skills and art theory will be introduced as a foundation on this level. Students collect their artwork to begin a portfolio.

3613 ART 2..... Grades 10, 11, 12 Level 3—1 Credit

Prerequisite: Successful completion of 2603 Art 1

This course aims to further develop the capacity for understanding conceptual art through creative problem solving and development of personal interests. Advanced projects in drawing, design and sculpture challenge students to experiment in two-dimensional and three-dimensional work in a variety of media and subjects. Topics may include, but are not limited to printmaking, painting, pastel drawings and sculpture. Students are required to keep a sketchbook and maintain a portfolio.

3643 STUDIO ART..... Grades 9, 10, 11, 12 ...Level 3— $\frac{1}{2}$ Credit

Prerequisite: Successful completion of 2603 Art 1 and/or department approval.

This course is offered only in the summer provided there is sufficient enrollment. The course builds on development gained from Art 1. Students will be introduced to new media, work on creating concepts, and start building a portfolio. Students may take this course multiple times.

36463 DIGITAL MEDIA Grades 10, 11, 12 Level 3—1 Credit

Prerequisite: 2603 Art 1

Digital Media surveys the creative and conceptual aspects of designing media arts including techniques, genres and styles from various and combined mediums and forms. It explores photography, sound design, digital design, and moving images. Typical course topics include: photography and using Photoshop, digital design using Illustrator, stop-animation, creating moving images, creating sounds and musical composition, as well as implementing design practices into traditional forms of artmaking.

4603 ART 3 Grade 11, 12 Level 3—1 Credit

Prerequisite: Successful completion of 3613 Art 2

In this course the students will continue to work in a variety of media that include exploration of new techniques and greater demonstration of skills. Topics may include, but are not limited to, previous studies such as watercolor, acrylic, and sculpture. Emphasis will be placed on contemporary approaches to self-expression in developing an independent and personal style. Students will be challenged at a higher level of evaluation. Sketchbooks will exhibit both observation and reflection entries. A portfolio of work representing the three years of art is required for students pursuing a career in an art field.

4634 ART 4 HONORS Grade 12 Level 4—1 Credit

Prerequisite: Successful completion of 4603 Art 3

Students will create a body of work connected to a single theme that they create. Specifics for the amount of work, the size of works, the mediums used to create these works, and the concept in which the student will base all works will be discussed and agreed upon with the instructor. Progress of the work will be checked and graded at the mid-term and end of each quarter and the entirety of the year's work will be turned in and critiqued as a final exam.

4635 AP STUDIO ART Grade 12 Level 5—1 Credit

Prerequisite: Successful completion of 3613 Art 2 or 2603 Art 1 and 3643 Studio Art and/or the invitation from the department.

This class is for serious art students planning on continuing their art education in college. Students will work to create a portfolio displaying between twenty-four to twenty-nine pieces of the student's best work. Students' portfolios are required to meet the AP Studio Art Standards. Portfolios will include 3 sections: Breadth, Concentration, and Quality. In the Breadth section, students display 12 pieces that show the range of their talents. In the Concentration section, students display their ability to create 12 pieces based upon one concept and should show how well the student can communicate their concept in visual form. In the Quality section, students submit 5 pieces of their best work to be juried by the AP Board.

4663 TEXTILES Grades 11, 12Level 3— $\frac{1}{2}$ Credit

Prerequisite: None

This class introduces students to the history, design and aesthetics of clothing, home decor and accessories. Each student will be required to learn the specific techniques of machine and hand sewing including the production of several sewn items. All couture seams will be demonstrated, taught and completed by the students. They will use color theory to design and purchase their fabric for various projects. Quilting techniques will be included and the Log Cabin pattern is the class signature project. Students will also learn about elements of the fashion design industry and the production of clothing.

4693 TEXTILES 2 Grades 11, 12Level 3— $\frac{1}{2}$ Credit

Prerequisite: 4663 Textiles

Textiles 2 builds upon the skills students developed in Textiles. Students will apply their knowledge of machine and hand sewing to new projects. Each student will be required to learn advanced techniques of machine and hand sewing by applying them to the production of various sewn items. Students will learn to read a pattern, select appropriate fabric for the pattern and construct several garments. All couture seams will be demonstrated, taught and completed by the students. They will use color theory to design and purchase their fabric for various projects and apply geometry and algebra to pattern alterations and design. Students will create a signature project that may be a couture garment or fabric art piece. Students will also learn about elements of the fashion design industry and the practicalities of the business side of art and fashion.

Music

Music is a creative expression that enriches one's life and is an essential ingredient in the curriculum of any liberal arts program. Every student should have the opportunity to study music, participate in choral singing, and share her instrumental talents with others in the orchestra.

2653 HISTORY OF ROCK AND ROLL Grades 10, 11, 12 Level 3—1 Credit

Prerequisite: None

This class will break down the fundamental elements of Rock and Roll music as a musical genre and literary art form. Students will learn about not only the style and sound of Rock and Roll, but of each genre that influenced it and was borne of it as well. Students will learn important composers/arrangers and performers through the years. Students will also study the music industry and how it has changed, as well as its influence on society, and likewise, society's influence on the industry. By the conclusion of this course, students will have a much deeper understanding of modern genres and the important people connected to them, as well as how the music industry works and where it is headed. This course counts towards the Fine Arts requirement.

2673 CHOIR Grades 10, 11, 12Level 3— $\frac{1}{2}$ Credit

Prerequisite: Audition/Department approval, participation in the Panda Tones club or taking 4673 Chorus is strongly encouraged prior to taking Choir.

Students will sing in harmony and receive vocal technique instruction, sight singing instruction and basic music theory instruction. Attendance at dress rehearsals and performances is required. Students will perform at various school functions and concerts that may be outside the normal hours of the school day. Choir is scheduled during the school day during a class time slot and meets on Monday, Wednesday and Friday all year. Students who are interested in performing in the theatre musical shows are encouraged to consider taking Choir. This course counts towards the Fine Arts requirement.

36475 AP MUSIC THEORY Grades 10, 11, 12 Level 3—1 Credit

Prerequisite: Department Approval

AP Music Theory is an introductory college-level music theory course. Students cultivate their understanding of music theory through analyzing performed and notated music as they explore concepts like pitch, rhythm, form, and musical design.

36393 PIANO LAB Grades 10, 11, 12Level 3— $\frac{1}{2}$ Credit

Prerequisite: None

This class is designed for beginners who have little to no experience on the piano. The course will cover proper technique, note reading, rhythm, music terms and symbols, chord progressions and harmonizing, and 12- bar blues. This course is open to all students, and is recommended both for those with a general interest in learning how to play, as well as those who already play other instruments, but want to widen their musical knowledge and ability. This course counts towards the Fine Arts requirement.

36293 PIANO LAB SEMESTER 2 Grades 10, 11, 12Level 3— $\frac{1}{2}$ Credit

Prerequisite: 3693 Piano Lab

This class is a continuation of Piano Lab 1. The course will continue to cover proper technique, note reading, rhythm, music terms and symbols, chord progressions and harmonizing, and 12- bar blues. This course counts towards the Fine Arts requirement.

4673 CHORUS..... Grades 9, 10, 11, 12 ...Level 3— $\frac{1}{2}$ Credit

Prerequisite: None

Students will sing in harmony and receive vocal technique instruction, sight singing instruction and basic music theory instruction. Attendance at dress rehearsals and performances is required. Students will perform at various school functions and concerts that may be outside the normal hours of the school day. Chorus is scheduled in the after school/CPM class time slot. In particular Chorus is scheduled to allow freshman interested in singing to have an opportunity to earn credit in vocal music when the normal freshman's schedule allows no opportunity to do so during the school day. However, students in other grade levels may want to take Chorus if they can't fit Choir into their schedules. Students who are interested in performing in the theatre musical shows are encouraged to consider taking Chorus. Students may take this course multiple times both to fulfill the Fine Arts requirement and/or for additional elective credit.

4674 CHOIR-HONORS..... Grades 11, 12Level 4— $\frac{1}{2}$ Credit

Prerequisite: 2673 Choir or audition and departmental approval

Choir-Honors enhances and reinforces what student learned performing in 2673 Choir. Students will sing in harmony and receive vocal technique instruction, sight singing instruction and basic music theory instruction. Attendance at dress rehearsals and performances is required. Students will perform at various school functions and concerts that may be outside the normal hours of the school day. Choir is scheduled during the school day during a class time slot and meets on Monday, Wednesday and Friday all year. Students who are interested in performing in the theatre musical shows are encouraged to consider taking Choir-Honors. Students may take this course multiple times. This course counts towards the Fine Arts requirement.

4683 BAND Grades 9, 10, 11, 12 ...Level 3— $\frac{1}{2}$ Credit

Prerequisite: Proficiency on an instrument and ability to read music

Band/Orchestra is offered as a class before school. Students will gain experience in technique on their instrument and blending musically in an ensemble. The orchestra will perform at various school functions and concerts throughout the year. Attendance at rehearsals and performances is required. Rehearsals will be held before school approximately three days per week. Some rehearsals and performances will be outside the normal hours of the school day. Consult the band director for more information on schedule details. Students may take this course multiple times.

4694 BAND-HONORS Grades 11, 12Level 4— $\frac{1}{2}$ Credit

Prerequisite: Proficiency on an instrument and ability to read music, one credit of 4683 Band, and department approval

This course follows the same course summary as 4683 Band. In addition, honors students will be required to complete assignments relating to various topics in music theory and music history. Honors students will be held to a higher standard with regard to music performance and music performance tests. Honors Band students will be required to keep rehearsal logs and private instruction will be recommended. Students may take this course multiple times.

Theatre Arts

2683 PUBLIC SPEAKING Grades 10, 11, 12 ...Level 3— $\frac{1}{2}$ Credit

Prerequisite: None

Public Speaking is a universal skill needed for success in college, the workforce, and beyond. Most colleges have a general studies requirement in communications skills. It is especially recommended for students interested in theatre classes or the Law and Justice class. Public Speaking is an excellent foundation especially for those interested in careers in theatre, teaching, business, or the law. This course will focus on learning to address large or small audiences with intelligence and confidence through a series of speeches and “town hall meeting” style debates. The assigned speeches will practice informational, extemporaneous, and persuasive styles of speaking, while the debates will focus on developing and refuting arguments on the spot in a calm and collected manner. Students will be required to develop topics, do thorough research and cite all sources. All elements of this course are designed to create a public speaker with poise, professionalism, and an engaging style of delivery. At the completion of this course, students will feel more comfortable in public speaking situations, have an understanding of the steps required to develop and support a thesis, and have a logical, organized process for preparing to speak in public. Public Speaking is an elective course and does not fulfill the graduation requirements for the visual and performing arts.

4614 ADVANCED THEATRE HONORS Grades 11, 12 Level 4—1 Credit

Prerequisite: Department approval upon completion of 4643 Theatre or Department approval of alternative training and experience in theatre.

This course is for the advanced theatre student who is interested in theatre beyond high school and will focus on those skills needed to pursue theatre or theatre applications in collegiate, community or professional arenas. Students enrolled in this course may choose to specialize in performance or tech or a combination of the two according to their interests. Performance students will focus on audition prep, building a monologue or singing repertoire, improving dance skills, advanced scene study and acting techniques, as well as performance experiences. Tech students will focus on the process of casting, dramaturgy and directing, technical design (lights, sound, costume or set design), stage management and execution in real show conditions. For our culminating project, all students will create a professional portfolio including examples of their work throughout the year, audition or technical design repertoire, professional resume and headshot for use in college entrance auditions/interviews or theatre experience.

4643 THEATRE..... Grades 10, 11, 12 Level 3—1 Credit

Prerequisite: None

This course will provide the students with exposure to and understanding of theatre/ drama with a heavy emphasis on performance. Areas that will be taught involve: auditioning, acting, character development, stage movement, blocking, professional standards for performance, rehearsal (format and protocol), stage make-up, costuming, and stage crew. Students will learn the various aspects of stage production including set construction, lighting, sound, props and costuming. Each student will gain hands-on experience by working on and managing the crews for the yearly shows. Each student will need to actively participate on a crew on at least one production. Grading will be determined by written tests including some material regarding performance history and actual production work. This class will involve some time outside of the normal school day.

HISTORY-SOCIAL STUDIES DEPARTMENT

(Three credits of history and social studies are required)

The purpose of the Social Studies program is to afford the student a working knowledge of the story of the world in which she lives. This working knowledge will provide the student with the facts and the skills necessary for using these facts. One of the major aims of the program is to develop the student's understanding of her Christian responsibility to the world.

Department Learner Goals:

Students will:

- Demonstrate an ability to read and interpret maps, as well as demonstrate knowledge of the five themes of geography.
- Demonstrate knowledge of the key facts, terms, and concepts of the Social Sciences.
- Students will demonstrate an ability to analyze a variety of materials, including charts, graphs, primary sources, and works of art and literature.
- Demonstrate an ability to relate the past to current issues.
- Be exposed to the concepts of good citizenship and demonstrate a knowledge of the foundations of American government.
- Demonstrate an appreciation for the contributions made by diverse religious, ethnic, and racial groups.
- Demonstrate an understanding and appreciation for gender roles.
- Demonstrate an ability to use digital technology in connection with the Social Sciences.
- Demonstrate proficiency in writing skills required for the Social Sciences.

1533 WORLD GEOGRAPHY Grade 9Level 3— $\frac{1}{2}$ Credit

Prerequisites: None

This course is designed to give freshmen a basic geographic overview of the world and serve as a foundation course for all other social studies offerings. The course will study political geography, landforms, and climate zones, and give the student a basic understanding of the world in which we live so that she can apply this geographic understanding as she continues her studies of world and American history.

2505 A.P. WORLD HISTORY Grade 10 Level 5—1 Credit

Prerequisites: History-Social Studies and department recommendation

This course covers both Western and non-Western history from the end of the New Stone Age to the present. Students will be expected to have an in-depth knowledge of the main events, personalities, societies, and trends that have taken place in the history of the world. Students are also expected to be familiar with the craft of history, such as historical writing, and the interpretation and analysis of primary sources. Students are expected to take the AP Exam at the conclusion of the course. Students may take A.P. World History for dual credit through Thomas More University's Gemini Program.

2514 WORLD CIVILIZATIONS-HONORS Grade 10 Level 4—1 Credit

Prerequisites: History-Social Studies department recommendation

Level 4 World History is a survey course that stresses analysis of history that will enable students to grasp the broader implication of motives and deeds that they study in the story of humankind. This course demands more writing to demonstrate understanding and use of social studies skills. Students will be required to read and analyze a wide variety of primary sources. Knowledge of geography as it affects human activity is also developed.

2523 WORLD CIVILIZATIONS..... Grade 10 Level 3—1 Credit

Prerequisites: None

This course is a general survey of world history emphasizing an understanding of the forces that have shaped its major personalities and events. While priority is given to western history, non-western cultures are studied as time permits. The course stresses organizing information, drawing conclusions, evaluating ideas, and geography skills.

3505 AP U.S. HISTORY Grade 11 Level 5—1 Credit

Prerequisite: 2514 World Civilizations Honors or 2523 World Civilizations, and department recommendation

This course focuses on the key events/characters that have shaped American History and relies heavily on student document analysis and evaluation of historical events. The ability to write organized essays and papers is stressed. The students are expected to take the AP Exam at the conclusion of the course.

3514 U.S. HISTORY-HONORS..... Grade 11 Level 4—1 Credit

Prerequisite: 2514 World Civilizations-Honors or 2523 World Civilizations with History-Social Studies department recommendation

In addition to all aspects of level 3, 3523 U.S. History, this class includes outside reading throughout the year and an emphasis on essay writing, especially on tests.

3523 U.S. HISTORY..... Grade 11 Level 3—1 Credit

Prerequisite: 2514 World Civilizations-Honors or 2523 World Civilizations

The course is divided into Pre-Civil War and Post-Civil War. The goal of the course is to give the student an understanding of the developments of the political, social, economic and diplomatic aspects in United States history and an appreciation of our heritage as citizens. Analytical and map skills along with some historical research and interpretation are emphasized.

3533 LAW AND JUSTICE..... Grades 9, 10, 11, 12 Level 3—1 Credit

Prerequisite: None

Law and Justice is an introduction to the legal system of the United States. This study of the basic social contracts of society will enable students to understand our democratic values of justice, equality under the rule of law, responsibility, freedom, human rights, equity and human dignity. These values are explored as students are aided by attorneys from local firms to prepare to participate in a mock trial competition. Students may participate all four years in the mock trial competition but are eligible to take the class for credit twice to earn a maximum of 1 credit as an elective in history and social studies. Note—The class meets outside the regular school day in the late afternoon and early evening two days per week beginning in October. As the mock trial competition approaches in February, Saturday meetings are added and hours are extended. Students may take Law and Justice multiple times.

4505 AP EUROPEAN HISTORY Grade 12 Level 5—1 Credit

Prerequisite: History-Social Studies and department recommendation

This course covers European history from the Renaissance to the present. Students will be expected to demonstrate an in-depth knowledge of European political, economic, intellectual, and social history. Critical thinking and the ability to write organized essays will be emphasized. Students are either encouraged to take the AP Exam or enroll for dual credit through Thomas More University's Gemini Program.

4514 CURRENT ISSUES-HONORS Grade 12 Level 4—½ Credit

Prerequisite: 3523 U.S. History, 3514 U.S. History-Honors or 3505 AP U.S. History

This course follows the same curriculum as Level 3 Current Issues (4523). In addition the honors level will involve research projects directed by the teacher.

4523 CURRENT ISSUES Grade 12 Level 3—½ Credit

Prerequisite: 3523 U.S. History, 3514 U.S. History-Honors or 3505 AP U.S. History

This course will focus on the current state of world affairs. The class involves an intensive study of the major geographic/cultural regions of the modern world, with an emphasis on the current problems and potential developments there. Topics will often be focused on events developing in the news. Discussion and debate of current international political and economic issues will be included.

4543 PSYCHOLOGY..... Grade 12 Level 3—1 Credit

Prerequisite: None

This course is a survey of the many facets of Psychology. Included is the study of child, adolescent, and adult development, as well as the study of the brain, learning, memory, personality, motivation and emotion, sleep and dreams, sensation and perception. The course also covers the latest research involved in mental disorders and treatments. The scientific method is briefly covered as it relates to research within the field. Interactive computer programs and professional speakers supplement the content of the course.

4544 PSYCHOLOGY-HONORS Grades 11, 12 Level 4—1 Credit

Prerequisite: None for seniors. Department approval for juniors.

This course will follow the course summary for 4543 Psychology level 3 with stronger emphasis upon reading, critical analysis, and supplementary research. Honors students will be also be expected to model appropriate leadership skills during classroom discussions as well as the oral articulation of assigned subject matter. Note: Juniors wishing to take Psychology Honors are required to submit a letter of interest to their academic counselor that includes examples of their participation and leadership in classroom discussions and their work ethic that will be important as a contributing member of this class.

4563 GOVERNMENT Grade 12Level 3— $\frac{1}{2}$ Credit

Prerequisite: 3523 U.S. History, 3514 U.S. History-Honors or 3505 AP U.S. History

This course involves the study of the U.S. government. The functions of federal, state, and local government, as well as the separation of powers, will be emphasized. Discussion and debate of current political issues will be included. There will also be comparative studies of alternative government systems. During presidential election years, the class will organize a mock presidential election.

4564 GOVERNMENT-HONORS Grade 12Level 4— $\frac{1}{2}$ Credit

Prerequisite: 3523 U.S. History, 3514 U.S. History-Honors or 3505 AP U.S. History

This course follows the same curriculum as Level 3 Government (4563). In addition the honors level will involve research projects directed by the teacher.

4573 ECONOMICS Grade 12 Level 3— $\frac{1}{2}$ Credit

Prerequisite: 3523 U.S. History, 3514 U.S. History-Honors or 3505 AP U.S. History

This course will focus on the study of basic economic principles and theories, along with their practical applications in the real world. The roles of the individual, business, and government in the economic system will be discussed. Discussion and debate of current economic issues will be included.

4574 ECONOMICS-HONORS Grade 12Level 4— $\frac{1}{2}$ Credit

Prerequisite: 3523 U.S. History, 3514 U.S. History-Honors or 3505 AP U.S. History

This course follows the same curriculum as Level 3 Economics (4573). In addition the honors level will involve research projects directed by the teacher.

4583 WOMEN IN AMERICA Grade 12Level 3— $\frac{1}{2}$ Credit

Prerequisite: 3523 U.S. History, 3514 U.S. History-Honors or 3505 AP U.S. History

This course will move through the chronology of American history to examine the broad themes that have shaped women’s lives, as well as how women have impacted American Society. Women’s history from the Civil War to the present will be the focus of the class. While tracing larger trends and identifying common experiences, we will also pay close attention to the specific experiences of individual women in order to shed light on social, economic and ethnic differences among them. We will examine a wide array of written and visual primary sources.

4584 WOMEN IN AMERICA-HONORS Grade 12Level 4— $\frac{1}{2}$ Credit

Prerequisite: 3523 U.S. History, 3514 U.S. History-Honors or 3505 AP U.S. History

This course follows the same curriculum as Level 3 Women in America (4583). In addition the honors level will involve research projects and supplemental readings directed by the teacher.

MATHEMATICS DEPARTMENT

(Three and one-half or four credits of mathematics are required including: Algebra 1, Algebra 2, and Geometry or higher-level mathematics courses in their place. In addition a mathematics course shall be taken each year of high school.)

Mathematics is a tool used to develop logical and creative thinking. The mathematics curriculum is designed to achieve a proper balance between theory and application through practice and problem solving. The mathematics department offers courses that utilize a variety of teaching methods to develop each student's mathematical potential. Students use a TI-84 Plus Graphing Calculator in all mathematics courses.

Department Learner Goals:

Students will:

- Develop a positive attitude towards mathematics by making mathematical processes meaningful.
- Develop a degree of self-confidence and self-direction in mathematics.
- Develop an ability to logically reason.
- Develop a competency in reading mathematical material.
- Express mathematical reasoning clearly when sharing answers with a small group or the class.
- Present mathematical concepts in a creative and meaningful way through research and analysis.
- Gain information from and to critique graphs, charts, statistics, and other data.
- Develop an appreciation of the structure of mathematics, its contribution in the development of civilization, and the importance of mathematics in the world today.
- Develop a solid background for further mathematical, scientific, and technical training.

1214 ALGEBRA 1 GRADE 8-HONORS Grade 8 Level 4—1 Credit

Prerequisite: Sufficient math aptitude test scores in grade school and department recommendation

Algebra 1 Grade 8 Honors is a collaborative course taught with Covington Catholic High School offered to eighth grade students who have demonstrated exceptional math skills as a way to accelerate their study of high school mathematics. It is designed for students who plan to take 4205 A.P. Calculus AB as a senior. A student who earns a minimum grade of 82 in this course may (but is not required to) take 3214 Algebra 2 Honors as freshmen and will earn one credit in mathematics on her high school transcript. The grade will be included in her NDA grade point averages. A student earning less than an 82 will receive credit for taking algebra on her grade school transcript and that grade will not be included in her high school grade point averages. Students taking this course are not eligible to take the Notre Dame Academy math department's qualifying test for 3214 Algebra 2-Honors.

1224 ALGEBRA 1-HONORS Grade 9 Level 3—1 Credit

Prerequisite: None

This course follows the same curriculum as the Level 3, 1233 Algebra I but is suggested for the student who has outstanding understanding of mathematics and the ability to work at a faster pace. Topics will be covered in more depth than the Level 3 course.

1233 ALGEBRA 1 Grade 9 Level 3—1 Credit

Prerequisite: None

This course is designed to provide students with a strong foundation in basic algebraic concepts, skills, and applications. Instruction in number theory, graphs, mathematical sentences, polynomials, and linear equations with one or two variables will be included. This course is required unless a student is exempted by acceptable performance on a comprehensive test or a student has already earned an Algebra 1 credit from a high school transcript. Eighth grade algebra does not necessarily exempt a student.

2204 GEOMETRY-HONORS Grade 10 Level 4—1 Credit

Prerequisite: 1233Algebra 1 or Freshman 3214 Algebra 2-Honors and department approval

This course follows the same curriculum as the Level 3, 2213 Geometry but has a heavier emphasis on proofs and critical thinking. Students will explore topics at a faster pace and study more abstract concepts than in the Level 3 course. Geometry is required of all students.

2213, 2223 GEOMETRY Grade 10 Level 3—1 Credit

Prerequisite: 1233Algebra 1

This course includes the study of plane and solid geometry. Its purpose is to provide students with an understanding of geometric figures in the plane and in space, and to develop a deductive method of reasoning through the use of proofs. The course provides opportunities for original and creative thinking by the students. Geometry is required of all students.

3214, 3234 ALGEBRA 2-HONORS Grades 9, 10, 11 Level 4—1 Credit

Prerequisite: 1233 Algebra 1 with department recommendation

Prerequisite for 3214: Completion of 1214 Algebra 1 Grade 8-Honors with a minimum grade of 82% or Math department acceptance of the score from the Algebra 2 Honors qualifying test or earned credit for Algebra 1 that appears on a transcript from another high school.

This course follows the same curriculum as the Level 3, 3253 Algebra 2 but is suggested for the student who has an outstanding understanding of mathematics and the ability to work at a faster pace. Topics will be covered in more depth than the Level 3 course. Students at this level should have an interest in studying mathematics beyond the requirements of Algebra 1, Geometry, and Algebra 2. This course is also offered to freshmen who have completed a full year of high school Algebra in eighth grade and meet the above prerequisites. Students invited to take Algebra 2 as freshmen should have an interest in the field of mathematics and plan to study four years of math, including AP Calculus their senior year. Sophomores who elect to double up also take this course. Algebra 2 is required of all students.

3253, 3263 ALGEBRA 2 Grades 11 Level 3—1 Credit

Prerequisite: 1233Algebra 1

This course is an extension of Algebra 1 and includes topics such as polynomials, algebraic functions, probability, exponents and radicals, simultaneous equations, graphs of a variety of functions and relations, and analytic geometry. Algebra 2 is required of all students.

4204 CALCULUS-HONORS Grade 12 Level 5—1 Credit

Prerequisite: 4223 Precalculus or 4214 Precalculus-Honors

This course will provide an introduction into Calculus concepts and applications. Topics will include differentiation techniques and application. Some techniques for integration will also be covered, as well as applications. This course will provide exposure to Calculus topics in order to prepare students to take Calculus I at the college level.

4205 AP CALCULUS AB Grade 12 Level 5—1 Credit

Prerequisite: Level 4, 4214 Precalculus-Honors and department recommendation

This course is a first semester college Calculus course and includes preparation for the AP test. Topics studied include: analytic geometry, differential and integral calculus of algebraic and transcendental functions and geometric and physical applications. Upon successful completion of the AP test, students may receive college credit.

42415 AP PRECALCULUSGrades 11, 12 Level 4—1 Credit

Prerequisite: 2213/2223 Geometry or 2204 Geometry-Honors and 3253 Algebra 2 or 3214/3234 Algebra 2-Honors

In AP Precalculus, students explore everyday situations and phenomena using mathematical tools and lenses. Through regular practice, students build deep mastery of modeling and functions, and they examine scenarios through multiple representations. They will learn how to observe, explore, and build mathematical meaning from dynamic systems, an important practice for thriving in an ever-changing world. The framework delineates content and skills common to college precalculus courses that are foundational for careers in mathematics, physics, biology, health science, social science, and data science. Students study each function type through their graphical, numerical, verbal, and analytical representations and their applications in a variety of contexts. Furthermore, students apply their understanding of functions by constructing and validating appropriate function models for scenarios, sets of conditions, and data sets, thereby gaining a deeper understanding of the nature and behavior of each function type.

4223 PRECALCULUS Grade 12 Level 3—1 Credit

Prerequisite: 2213/2223 Geometry or 2204 Geometry-Honors and 3253/3263 Algebra 2 or 3214/3234 Algebra 2-Honors

This course builds on the concepts learned in Algebra 2. It is designed for those who have had relative success in mathematics up to this level and who have an interest in mathematics. Students will study a wide variety of functions including a comprehensive study of Trigonometry. Other topics may include conics, sequences and series, logarithms, matrices and determinants, complex numbers and polar coordinates.

42453 STATISTICS AND PROBABILITY Grade 11, 12 Level 3—1 Credit

Prerequisite: 3253/3263 Algebra 2

This course will present analysis and visualization techniques for one and two variable data. Various tests for inference and correlation will be learned. Traditional approach to Theoretical Probability and Empirical (simulation) Probability will be researched. In addition, Algebraic and geometric skills will be reviewed in preparation for the ACT/SAT tests

Note– the course is not designed for students who are taking, or have already taken, Precalculus

4255 AP STATISTICS Grades 10, 11, 12 Level 5—1 Credit

Prerequisite: Department Recommendation

The purpose of the AP course in statistics is to introduce students to the major concepts and tools for collecting, analyzing and drawing conclusions from data. Students are exposed to four broad conceptual themes: 1. Exploring Data: Describing patterns and departures from patterns 2. Sampling and Experimentation: Planning and conducting a study 3. Anticipating Patterns: Exploring random phenomena using probability and simulation 4. Statistical Inference: Estimating population parameters and testing hypotheses Students who successfully complete the course and exam may receive credit, advanced placement or both for a one-semester introductory college statistics course.

RELIGION DEPARTMENT

(Four credits of religion are required including Faith and Revelation, Scriptures, Church History, and Morality.)

Beginning in the 2014-2015 School year, Notre Dame Academy began implementing the new Diocesan High School Religion Curriculum. This new curriculum will better align the Diocese of Covington with the United States Bishops' document *Doctrinal Elements of a Curriculum Framework for the Development of Catechetical Materials for Young People of High School Age*. These new mandates will be implemented in stages over the next four years.

The Religion Department of Notre Dame Academy assists young women in the development of their faith and in forming small Christian communities beginning in their freshman year. Students are encouraged to view Faith as a gift from God that must be nourished and lived out according to the Gospel values inherent in the Catholic Tradition.

Not only are students taught Catholic doctrine and the eternal truth found in Sacred Scripture and Tradition, but also they are encouraged to use critical thinking skills regarding their spiritual development and the formation of a moral conscience. A positive relationship with God and with others is accomplished through opportunities for involvement in their school, community and the world, through service opportunities for those in need, provided by Campus Ministry.

Department Learner Goals:

Students will:

- Develop an understanding of the Church's role in Salvation History through a comprehensive study of Catholic Doctrine, Scriptures, Church History and Morality.
- Develop an understanding that Christ's mission and salvation history continues in the divinely instituted Church which is guided by the Holy Spirit.
- Engage in theological reflection and faith sharing.
- Integrate technology to enhance learning and to provide the tools necessary for a variety of learning styles and accommodations.

FRESHMEN YEAR

The Freshman Religion Classes are separate half-credit classes. Students must pass both.

1013 AN INTRODUCTION TO SCRIPTURE ... Grade 9Level 3— $\frac{1}{2}$ Credit
Co-requisite: 1023 Who is Christ?

(FAITH AND REVELATION)

The purpose of this course is to give students a general knowledge and appreciation of the Sacred Scriptures. Through their study of the Bible they will come to encounter the Living Word of God, Jesus Christ. They will learn about the Bible, authored by God through Inspiration, and its value to people throughout the world. They will learn how to read the Bible and will become familiar with the major sections of the Bible and the books included in each section.

1023 WHO IS CHRIST? Grade 9Level 3— $\frac{1}{2}$ Credit
Co-requisite: 1013 An Introduction to Scripture

(THE BLESSED TRINITY)

The purpose of this course is to introduce students to the mystery of Jesus Christ, the living Word of God, and the Second Person of the Blessed Trinity. In this course students will understand that Jesus Christ is the ultimate Revelation to us from God. In learning about who He is, the students will also learn who He calls them to be.

CHRISTIAN SERVICE FOR FRESHMEN

The freshmen are introduced to service as an integral part of the Christian life through an organized Freshman Service day in the Fall. The event takes place during the school day.

RETREAT PROGRAM FOR FRESHMEN

The freshmen take part in a day of reflection in the Fall. This day of reflection introduces the students to ways they can make a difference in social justice settings in their everyday lives and in the world around them. This retreat takes place during the school day. Each freshman is required to participate in this program.

SOPHOMORE YEAR

The Sophomore Religion Classes are separate half-credit classes. Students must pass both.

2013 THE MISSION OF CHRISTGrade 10..... Level 3— $\frac{1}{2}$ Credit

Co-requisite: 2023 Christ and the Church

(THE MYSTERY OF REDEMPTION AND CHRISTIAN DISCIPLESHIP)

The purpose of this course is to help students understand all that God has done for us through his Son, Jesus Christ. Through this course of study, students will learn that for all eternity, God has planned for us to share eternal happiness with him, which is accomplished through the redemption Christ won for us. Students will learn that they share in this redemption only in and through Jesus Christ. They will also be introduced to what it means to be a disciple of Christ and what life as a disciple entails.

2023 CHRIST AND THE CHURCHGrade 10..... Level 3— $\frac{1}{2}$ Credit

Co-requisite:: 2013 The Mission of Christ

(THE CHURCH: THE SACRAMENT OF SALVATION)

The purpose of this course is to help the students understand that in and through the Church they encounter the living Jesus Christ. They will be introduced to the fact that the Church was founded by Christ through the Apostles and is sustained by him through the Holy Spirit. The students will come to know that the Church is the living Body of Christ today. This Body has both divine and human elements. In this course, students will learn not so much about events in the life of the Church but about the sacred nature of the Church.

CHRISTIAN SERVICE FOR SOPHOMORES

Sophomores continue their service by completing 15 hours of service during the first three quarters of the school year. This service is done in non-profit agencies and institutions in the area.

RETREAT PROGRAM FOR SOPHOMORES

The religion department plans a retreat experience for sophomores. The emphasis of the retreat is community building and Marian Spirituality. This retreat takes place during the school day. Each sophomore is required to participate in this program.

JUNIOR YEAR

The Junior Religion Classes are separate half-credit classes. Students must pass both.

3013 CATHOLIC SOCIAL TEACHINGGrade 11 Level 3. — $\frac{1}{2}$ Credit

Co-requisite: 3033 Christ And The Sacraments

(THE SOCIAL DOCTRINE OF THE CATHOLIC CHURCH)

The purpose of this course is to introduce students to the Church's social teaching in an interactive and hands on way. In this course, students are to learn how Christ's concern for others, especially the poor and needy, is present today in the Church's social teaching and mission.

3033 CHRIST AND THE SACRAMENTSGrade 11 Level 3. — $\frac{1}{2}$ Credit

Co-requisite: 3013 Catholic Social Teaching

(THE SACRAMENTS: SOURCE OF OUR LIFE IN CHRIST)

The purpose of this course is to help students understand that they can encounter Christ today in a full and real way in and through the sacraments, and especially through the Eucharist. Students will examine each of the sacraments in detail so as to learn how they may encounter Christ throughout life.

CHRISTIAN SERVICE FOR JUNIORS

Junior Service: Each week on Tuesdays or Thursdays the junior student will participate in the Junior Service program. Junior Service will account for a percentage of the Junior Religion grade.

RETREAT PROGRAM FOR JUNIORS

The religion department in cooperation with the junior class plans a retreat experience for juniors. The emphasis of the retreat is growth in one's life with God and others. The retreat is held on a school day after regular school hours. Each junior is required to participate in this program.

SENIOR YEAR

The Senior Religion Classes are separate half-credit classes. Students must pass both.

4013 MORAL LIVING IN CHRISTGrade 12..... Level 3. — $\frac{1}{2}$ Credit

Co-requisite:: 4023 Vocations

(OUR MORAL LIFE IN CHRIST)

The purpose of this course is to help students understand that it is only through Christ that they can fully live out God's plans for their lives. Students will learn the moral concepts and precepts that govern the lives of Christ's disciples.

4023 VOCATIONSGrade 12..... Level 3. — $\frac{1}{2}$ Credit

Co-requisite: 4013 Moral Living in Christ

(VOCATIONS AND THE UNIVERSAL CALL TO HOLINESS)

The purpose of this course is to help students to understand the vocations of life: how Christ calls us to live. In this course, students will learn how all vocations are similar and how they differ. The course will be constructed around married life, single life, and consecrated life. Students will learn what it means to live life for the benefit of others and the value in considering a vocation in service to the Christian community.

CHRISTIAN SERVICE FOR SENIORS

Seniors are expected to participate in a project of their own design (guidelines given at the beginning of the school year). During the fourth quarter each student will present a Final Service Completion Project that pulls together all 4 years of their service experience.

RETREAT PROGRAM FOR SENIORS

Seniors are expected to take part in one of three overnight retreats.

SCIENCE DEPARTMENT

(Three credits of science are required including one physical science and one life science—one of which must be a lab science. In addition one-half credit of Health and one-half credit of Physical Education are required.)

Science is a major part of modern culture. It is important not only in its factual content, but also in its method and philosophy. Since it has become enmeshed in our social institutions, our students need: to be scientifically literate, to develop a sense of inquiry, and to be appreciative of the natural world.

Department Learner Goals:

Students will:

- Use the scientific method to develop careful observation, critical thinking, and problem solving skills.
- Develop scientific literacy to be an informed citizen.
- Appreciate the inter-relatedness of physical and biological systems.
- Incorporate both scientific knowledge and technology into daily life.
- Understand the science that underlies the ethical issues of our day.
- Value the beauty of the natural environment and responsibly use its resources.

13433 BIOLOGYGrade 9..... Level 3—1 Credit

Prerequisite: None

This biology course is a study of genetics, evolution and the plant and animal kingdoms. Emphasis is on heredity, especially human heredity, in the first semester. In the second semester, the anatomy and physiology of individual organisms and the interrelationships among various groups are treated. Laboratory experience, which may include dissections, forms an integral part of the subject matter.

13434 BIOLOGY HONORS Grade 9 Level 4—1 Credit

Prerequisite: None

This biology course is a study of genetics, evolution and the plant and animal kingdoms. Emphasis is on heredity, especially human heredity, in the first semester. In the second semester, the anatomy and physiology of individual organisms and the interrelationships among members of various groups are treated. Laboratory experience, which may include dissections, forms an integral part of the subject matter. Successful completion of the course will require consistent reading of text, frequent lab reports, and frequent written assignments and outside readings.

2304 CHEMISTRY-HONORS..... Grade 10 Level 4—1 Credit

Prerequisites: 1304 IPS-Physics Concepts-Honors or 1313 IPS-Physics Concepts

This advanced-level chemistry course explores the classes of matter, atomic structure, the periodic table, chemical formulas and equations, the mole concept, gas laws, energy relations and basic organic chemistry. Approximately one half of the class time is devoted to lab work. Dissection is not included. Students will be expected to master course material not always presented in class, work independently in the lab, and draw connections and conclusions across chapters. This course fulfills the college admission requirement for one year of high school chemistry.

2313 CHEMISTRY..... Grade 10 Level 3—1 Credit

Prerequisite: 1304 IPS-Physics Concepts-Honors or 1313 IPS-Physics Concepts

The first three quarters are devoted to introductory chemistry. Classes of matter, atomic structure, periodic table, formulas and equations, the mole concept, gas laws, energy relations and basic organic chemistry are among the topics covered. Topics included are: cell structure, origin of life, classification, and chemical basis of life. Approximately one half of the class time is devoted to lab work. This course fulfills the college admission requirement for one year of high school chemistry.

3305 AP BIOLOGY..... Grades 11, 12 Level 5—1 Credit

Prerequisites: 2313 Chemistry or 2304/2314 Chemistry-Honors and department recommendation

This advanced biology course includes content suggested for the Advancement Placement Exam in biology. The course emphasizes genetics and heredity, evolution, the anatomy and physiology of individual organisms and the interrelationships among various taxonomic groups. Content is studied in the context of major themes in biology such as continuity and change, science as a process and the relationship of structure to function. An inquiry-based approach requires significant laboratory experience which may include dissection and student-directed research. Students are expected to master a significant amount of material not presented in class, and may be required to perform open labs and prepare quarterly book reports. The course is designed to prepare students for the AP test usually taken in mid-May and assignments and tests are on a more challenging level than other biology sections.

3314 BIOLOGY-HONORS Grades 10, 11, 12 Level 4—1 Credit

Prerequisites: 2313 Chemistry or 2304 Chemistry-Honors

This biology course is a study of genetics, evolution and the plant and animal kingdoms. Emphasis is on heredity, especially human heredity, in the first semester. In the second semester, the anatomy and physiology of individual organisms and the interrelationships among members of various groups are treated. Laboratory experience, which may include dissections, forms an integral part of the subject matter. Successful completion of the course will require consistent reading of text, frequent lab reports, and frequent written assignments and outside readings.

3323 BIOLOGY..... Grades 11,12 Level 3—1 Credit

Prerequisites: 2313 Chemistry or 2304 Chemistry-Honors or department approval

This biology course is a study of genetics, evolution and the plant and animal kingdoms. Emphasis is on heredity, especially human heredity, in the first semester. In the second semester, the anatomy and physiology of individual organisms and the interrelationships among various groups are treated. Laboratory experience, which may include dissections, forms an integral part of the subject matter.

4313 HUMAN ANATOMY..... Grade 12 Level 3—1 Credit
AND PHYSIOLOGY

Prerequisite: Completion of 3 science credits including chemistry

This course is designed to give students an understanding of the anatomy and physiology of the human organ systems and their relationship to one another. This course is directed from the chemical and cellular levels to the whole organism. Health issues are addressed.

**4314 HUMAN ANATOMY..... Grade 12..... Level 4—1 Credit
AND PHYSIOLOGY HONORS**

Prerequisite: Completion of 3 science credits including biology and chemistry

This course follows the same curriculum as 4313 Human Anatomy and Physiology. Students in this level 4 honors course will be expected to demonstrate a greater depth of understanding and analysis on the assignments, projects and tests as well as complete supplemental reading as directed by the teacher.

**43224 ENVIRONMENTAL SCIENCE-..... Grades 11, 12Level 4— $\frac{1}{2}$ Credit
HONORS**

Prerequisites: Completion of 3 science credits including biology and chemistry

Environmental Science Honors is a semester-long course designed to show thematic connections between a variety of science disciplines including biology, chemistry, and physics. It gives students a coherent and realistic picture of the applications of a variety of scientific concepts as they manifest in our environment. Students will focus on human population growth, natural resources, and ecosystem dynamics. The aim of this course is to increase student knowledge of the environmental challenges of today, while continuing to cultivate scientific critical thinking skills. Students who take the Honors course will follow the same thematic approach as the AP class, however there will be differences in assessments and outside class expectations, such as homework and readings. The Honors class will complete some of the same lab experiences as the AP class.

43225 AP ENVIRONMENTAL SCIENCE Grades 11, 12 Level 5— $\frac{1}{2}$ Credit

Prerequisites: Completion of 3 science credits including biology and chemistry

The AP Environmental Science course is designed to be the equivalent of a one-semester, introductory college course in environmental science. The course is designed to engage students with the scientific principles, concepts, and methodologies required to understand the interrelationships within the natural world. The course requires that students identify and analyze natural and human-made environmental problems, evaluate the relative risks associated with these problems, and examine alternative solutions for resolving or preventing them. Environmental science is interdisciplinary, embracing topics from geology, biology, environmental studies, environmental science, chemistry, and geography. Although there are no specific AP Environmental Science labs or field investigations required for the course, it is required that students have the opportunity to spend a minimum of 25% of instructional time engaged in hands-on, inquiry-based laboratory and/or fieldwork investigations. Students are expected to take the AP Exam in May.

43144 ENGINEERING FOUNDATIONS- Grades 11, 12 Level 4— $\frac{1}{2}$ Credit
HONORS

Prerequisites or Co-requisite: 3253 Algebra 2 or 3214/3234 Algebra 2-Honors or higher level mathematics class

This semester long, course introduces students to various fields of engineering and their contributions to society, provides ample opportunity for project work in a team environment, practices regular effective communication techniques and knowledge synthesis skills and problem solving skills to various engineering problems, examines engineering ethics and the role the engineer plays in society and globally, studies and utilizes the engineering design process, and applies the engineering design process to open-ended engineering problems.

43244 ENGINEERING FOUNDATIONS- Grades 11, 12 Level 4— $\frac{1}{2}$ Credit
HONORS—S2

Prerequisites or Co-requisite: 3253 Algebra 2 or 3214/3234 Algebra 2-Honors or higher level mathematics class and successful completion of 43144 Engineering Foundations Honors.

This course allows the option to continue with the DC Engineering Foundation curriculum at the honors level in the second semester while meeting concurrently with the DC Engineering Foundations class.

4345 DC ENGINEERING FOUNDATIONS - Grades 11, 12 ... Level 5— $\frac{1}{2}$ Credit
DUAL CREDIT

Prerequisites: 4223 Precalculus or 4214 Precalculus-Honors, or a minimum ACT math score of 26 or above, 4344 Engineering Foundations Honors, and department recommendation

This semester long course picks up where 4344 Engineering Foundations leaves off and delves deeper into methodologies used in engineering like project management, measurements & estimations, data modeling with Excel and LabVIEW, units and conversions, programming in Python, and statistics. The course culminates in a group design project using robotics. The Course is offered as dual credit through the University of Cincinnati.

**4354 COMPUTER SCIENCE PRINCIPLES Grades 11, 12 Level 4— $\frac{1}{2}$ Credit
-HONORS**

Prerequisite: Any level Algebra 1 or higher math class

This semester long course introduces students to the field of computer science through the study of logic, algorithms, and programming using a computer. A brief history of computing is examined along with basic computer engineering concepts (binary, digital versus analog, compilers, robotics versus programming, etc.). Students will examine issues involving intellectual property, copyright, and ethics in computing. Career presentations are offered throughout the course. Students will complete all programming tasks through pair programming, a very important aspect of the computer science work environment.

**4355 AP COMPUTER SCIENCE Grades 11, 12 Level 5—1 Credit
PRINCIPLES**

Prerequisite: Any level Algebra 1 or higher math class and department recommendation

This year long AP course prepares students for the Advanced Placement Computer Science Principles test and is designed to attract students who do not see themselves as “computer geeks” or “AP students” as well as traditional computer science students. Students will study many times throughout the course the ideas of creativity, abstraction, data & information, algorithms, programming, the Internet, and global impact. Students will also develop computational thinking practices such as connecting computing, creating computational artifacts, abstracting, analyzing problems and artifacts, communicating, and collaborating. Almost all work completed in class is through pair programming.

4363 MARINE BIOLOGY Grades 11, 12 Level 3— $\frac{1}{2}$ Credit

Prerequisite: 3305 AP Biology, 3314 Biology-Honors or 3323/3343 Biology

This course covers the physical and biological features of the ocean realm. Areas under study include marine physical geography, oceanography and a phylogenetic survey of marine plankton, plants, invertebrates and vertebrates. Numerous lab activities are conducted. There will also be an opportunity to participate in optional field trips.

**4365 DC CHEMISTRY Grades 11, 12 Level 5— $\frac{3}{4}$ Credit
DUAL CREDIT**

Prerequisites: 2313 Chemistry or 2304/2314 Chemistry Honors and 3253 Algebra 2 or 3214/3234 Algebra 2 Honors and department recommendation

Co-requisite: L**4365 DC CHEMISTRY LAB** Grades 11, 12 Level 5— $\frac{1}{4}$ Credit

DC Chemistry is equivalent to the General Chemistry Course taken by freshmen in college. Students taking dc Chemistry will take the AP Exam to receive college credit or placement at the student’s college of choice. The DC Chemistry course is an accelerated, rigorous, college-like course, with lecture, minimum of 16 labs (of which 6 are guided inquiry labs), projects, homework, quizzes, tests and exams (including the AP exam). Students will be expected to work on up to 3–5 hours on material outside of class each week. The exam is broken down into 6 Big Ideas (% material on exam): Structure of Matter (20%), States of Matter (20%), Reactions (35-40%), Descriptive Chemistry (10-15%) and Laboratory experiences (5-10%).

4375 AP PHYSICS 1..... Grades 11, 12Level 5— $\frac{3}{4}$ Credit

Prerequisites: 1313 or 1304 IPS–Physics Concepts and 2213/2223 Geometry or 2204 Geometry-Honors and 3253/3263 and Algebra 2 or 3214/3234 Algebra 2-Honors Algebra 2 (may be taken concurrently), and department recommendation

Co-requisite: **L4375 AP PHYSICS 1 LAB** Grades 11, 12..... Level 5— $\frac{1}{4}$ Credit

This advanced course in physics puts considerable emphasis on the place of physics in the history of ideas. Topics covered include mechanics, wave motion, and DC circuits. This course requires added lab work and 1 to 2 lab reports weekly. Most homework is submitted via the Internet. Formulating physics in mathematical terms and problem solving are emphasized. The lab and lecture will both be represented on the report card for this class. Students may elect to take the AP Physics 1 exam of the College Board at the conclusion of the course. AP Physics 1 is also offered as a dual credit course with Thomas More University.

4384 PHYSICS-HONORS..... Grades 11, 12 Level 4— $\frac{3}{4}$ Credit

Prerequisites: 1313 or 1304 IPS–Physics Concepts, math to the level of Precalculus (may be taken concurrently)

Co-requisite: **L4375 AP Physics 1 Lab**, Grades 11, 12..... Level 5— $\frac{1}{4}$ Credit

This advanced course in physics puts considerable emphasis on the place of physics in the history of ideas. Topics covered include mechanics, astronomy, wave motion and electromagnetism, and atomic and nuclear physics. This course requires added lab work and 1 to 2 lab reports weekly. Most homework is submitted via the internet. The lab portion of the course is combined with the AP level course, and the lecture portion is similar to AP Physics but requires less mathematics. Please note, the laboratory and lecture portions appear as separate courses on the report card each having their own grade and corresponding level weighting. They combine for a total of one credit of science toward the graduation requirements.

4385 AP PHYSICS 2 Grade 12 Level 5— $\frac{3}{4}$ Credit

Prerequisites: 1313 or 1304 IPS–Physics Concepts, math to the level of Precalculus (may be taken concurrently), and department recommendation

Co-requisite: **L4385 AP Physics 2 Lab** Grade 12 Level 5— $\frac{1}{4}$ Credit

This advanced course in physics puts considerable emphasis on the place of physics in the history of ideas. Topics covered include wave motion, electromagnetism, and atomic and nuclear physics. This course requires added lab work and 1 to 2 lab reports weekly. Most homework is submitted via the Internet. Formulating physics in mathematical terms and problem solving are emphasized. The lab and lecture will both be represented on the report card for this class. Students may elect to take the AP Physics 2 exam of the College Board at the conclusion of the course. AP Physics 2 is also offered as a dual credit course with Thomas More University.

4394 SCIENCE RESEARCH-HONORS..... Grades 9, 10, 11, 12.....Level 4— $\frac{1}{2}$ Credit

Prerequisites: Department approval of application

This course focuses on conducting an individual research project. During the first three quarters, first-time enrollees will meet for instruction once a week before the traditional school day begins. The major work is preparation of a formal research proposal, and completing and presenting original research in the areas of mathematics, natural science, engineering, computer science, or behavioral science. A minimum of 144 hours is to be logged. The student will present her work during at least two science expositions in the second semester. This elective course does not fulfill the three science credits required for graduation. Students will complete an application and be selected by the Science Department based on the number of available slots. Students may take this course multiple times.

Health and Physical Education

1363, 1373 HEALTH..... Grade 9Level 3— $\frac{1}{2}$ Credit

Prerequisites: None

This course is designed primarily to give students a basic understanding of the systems of the human body and the effects of alcohol and drugs on the body. This course is also directed to help students understand the limitations placed on the body and the general maintenance and care of the body, including stress management. Students will gain a general appreciation for all health-related careers and receive CPR and First Aid certification.

1383, 1393 PHYSICAL EDUCATION Grade 9Level 3— $\frac{1}{2}$ Credit

Prerequisites: None

Physical education provides students with the knowledge, skills, and attitudes to acquire physical fitness, physical skills, and leisure skills necessary to maintain healthful and satisfying lifestyles throughout their lives. The class is designed to provide students with lifetime fitness activities in which they can participate at any age. The semester course includes the following units of instruction: tennis, golf, aerobics, weight training, dance, pickle ball, and badminton.

4333 PERSONAL FITNESS..... Grade 12Level 3— $\frac{1}{2}$ Credit

Prerequisites: 1383 or 1393 Physical Education

This course is designed to give students the opportunity to learn strength training concepts and techniques used for obtaining optimal physical fitness. Students will benefit from comprehensive strength training and cardiovascular exercise. Students will learn the basic fundamentals of aerobic exercise and strength training exercise as well as overall fitness training and conditioning. The course includes both lecture and activity sessions, with the majority of classes being activity. The students will participate in pre and post fitness assessments. The students will be empowered to make wise choices, meet new challenges and develop positive behaviors and habits that will encourage a healthy lifestyle.

WORLD LANGUAGES DEPARTMENT

(Two credits of the same world language are required.)

The study of a world language helps the student acquire a knowledge and appreciation of other people, their manner of communication and their culture. As our world shrinks through telecommunication advancements and society becomes more mobile, the tolerance and appreciation for other peoples become necessary social tools. Furthermore, studying other cultures becomes a stepping-stone to broader global awareness. The cognitive skills acquired in foreign language study equip the student for other academic learning. The general knowledge learned is a necessary foundation for liberal arts study. Notre Dame offers language study in French, Latin, and Spanish. All students are required to take two years of the language of their choice, and are encouraged to pursue the third and fourth years as well.

Department Learner Goals:

Following the national standards established by the American Council on the Teaching of Foreign Languages, the world language classes aim to help the student so that students will:

- Communicate in a language other than English.
- Gain knowledge and understanding of other cultures.
- Connect with other disciplines and viewpoints.
- Explore the nature of language, through the comparison of languages and cultures.
- Participate in multicultural communities, using language within and beyond the school setting, and for personal enrichment and enjoyment.

French

1413 FRENCH 1 Grades 9, 10, 11, 12 Level 3—1 Credit

Prerequisite: None

This course introduces the student to the fundamentals of listening, speaking, reading, and writing French. The emphasis is on vocabulary acquisition, correct pronunciation, and basic grammar principles. An introduction to the contemporary French-speaking world and its culture is included.

2404 FRENCH 2-HONORS Grades 9, 10, 11, 12 Level 4—1 Credit

Prerequisite: Average of 90% in 1413 French 1 and department recommendation

This course is similar to 2413 French 2, level 3, in content and goals. However, level 4 students are expected to manipulate the language more independently in all skill areas. Quizzes and tests are more challenging.

2413 FRENCH 2 Grades 9, 10, 11, 12 Level 3—1 Credit

Prerequisite: 1413 French 1

This course is a continuation of the first year course. It provides a review of basic concepts, ongoing development of vocabulary, and language skills. More emphasis is placed on the structure of the language in writing. Further exploration of French culture is pursued.

3404 FRENCH 3-HONORS Grades 10, 11, 12 Level 4—1 Credit

Prerequisite: Average of 90% in 2404 French 2-Honors or 2413 French 2 and department recommendation

This course is similar to 3413 French 3, level 3, in content and goals. However, level 4 students are expected to manipulate the language more independently in all skill areas. Quizzes and tests are more challenging.

3413 FRENCH 3 Grades 10, 11, 12 Level 3—1 Credit

Prerequisite: Average of 80% in 2404 French 2-Honors or 2413 French 2

This course enhances the basic knowledge acquired in French 1 and 2 with continued study of vocabulary, grammar, and culture. The emphasis is on the development of skills, especially in speaking and writing.

4405 AP FRENCH LANGUAGE Grades 11, 12 Level 5—1 Credit

Prerequisite: Average of 90% in 3404 French 3 Honors or 3413 French 3 and department recommendation

Typically, AP French students follow the same curriculum as the 4414 French 4-Honors class, but they are required to do additional assignments to prepare for the AP test.

4414 FRENCH 4-HONORS Grades 11, 12 Level 4—1 Credit

Prerequisite: Average of 85% in 3404 French 3 Honors or 3413 French 3 and department recommendation

This course is designed to be a culmination of a student’s study of French in high school. The course is centered on six themes: personal and public identities, families and communities, contemporary life, global challenges, science and technology, and beauty and aesthetics. Each unit of study examines one of these themes, providing a meaningful context for the development of language proficiency. While the student continues to expand and refine her knowledge of vocabulary and grammar, the emphasis is on communication in the four skill areas – reading, listening, writing, and speaking, and on enrichment of cultural understanding.

Latin

1463 LATIN 1 Grades 9, 10, 11, 12 Level 3—1 Credit

Prerequisite: None

The main objective of Latin 1 is to acquaint the students with the culture and language of the classical Romans. The students learn to read and translate Latin, to express themselves in written Latin and in a limited degree in oral Latin. Latin vocabulary, grammatical structures, derivatives and idioms are emphasized. Latin classical mythology is also included.

2464 LATIN 2-HONORS..... Grades 9, 10, 11, 12 Level 4—1 Credit

Prerequisite: Average of 90% in 1463 Latin 1 and department recommendation

This course is similar to 2473 Latin 2 in content and goals. However, level 4 students are expected to manipulate the language more independently in all skill areas. Quizzes and tests, as well as some routine assignments, are more challenging.

2473 LATIN 2 Grades 9, 10, 11, 12 Level 3—1 Credit

Prerequisite: 1463 Latin 1

The second year Latin student pursues the classical culture in greater detail. At the same time Latin grammar, vocabulary, derivatives and idioms are studied further.

3464 LATIN 3-HONORS..... Grades 10, 11, 12 Level 4—1 Credit

Prerequisite: Average of 90% in 2464 Latin 2-Honors or 2473 Latin 2 with department recommendation.

This course includes more advanced Latin syntax and grammar. Students are further acquainted with Classical antiquity through Roman literature. Students translate significant excerpts of Roman authors and research topics relevant to their work. This course is the year long course for Latin 3 students who **do not** want to take the Thomas More University dual credit option in the second semester.

3474 LATIN 3-HONORS..... Grades 10, 11, 12Level 4— $\frac{1}{2}$ Credit

Prerequisite: Average of 90% in 2464 Latin 2-Honors or 2473 Latin 2 and department recommendation.

Corequisite: 3475 Latin 3-Dual Credit (second semester)

This course follows the same curriculum as the yearlong Latin 3-honors (3474) course for the first semester. Students enrolled in first semester Latin 3-Honors continue in the second semester with Latin 3-Dual Credit (3465).

3475 DC LATIN 3-DUAL CREDIT Grades 10, 11, 12Level 5— $\frac{1}{2}$ Credit

Prerequisite: Average of 90% in 2464 Latin 2-Honors and department recommendation.

Corequisite: **3474 Latin 3-Honors (first semester)**

This course follows the Latin 3-Honors curriculum. In addition, Latin 3 Dual Credit students will be expected to sight-read and translate excerpts of classical Roman authors. Latin 3-Dual Credit is offered as a college level course for which students can receive credit from both Notre Dame Academy as well as Thomas More University as part of Thomas More University's dual credit program. The credit from Thomas More University is three credit hours and is transferable to most accredited colleges and universities. Students who are exploring particular colleges are urged to confirm that those colleges will recognize Thomas More University's credits. Students must enroll in the companion college course. Students who do not enroll in the Thomas More University course will be transferred to Latin 3-Honors (3464).

4474 LATIN 4-HONORS..... Grades 11, 12 Level 4—1 Credit

Prerequisite: Average of 85% in 3464 Latin 3-Honors

This course promotes prepared, advanced reading of ancient Roman authors and quality academic research on topics of Roman literature.

4485 DC LATIN 4-DUAL CREDIT Grades 11, 12 Level 5—1 Credit

Prerequisite: Average of 85% in 3464 Latin 3-Honors or 3465 Latin 3 Dual-Credit and department recommendation

This course follows the Latin 4 Honors (4474) curriculum. In addition to the reading of prepared passages of ancient Roman authors, Latin 4-Dual Credit students will be expected to sight read unprepared passages. Latin 4 Latin 4-Dual Credit is offered as a college level course for which students can receive credit from both Notre Dame Academy as well as Thomas More University as part of Thomas More University's dual credit program. The credit from Thomas More University is three credit hours and is transferable to most accredited colleges and universities. Students who are exploring particular colleges are urged to confirm that those colleges will recognize Thomas More University's credits. Students must enroll in the companion college course. Students who do not enroll in the Thomas More University course will be transferred to Latin 4-Honors (4474).

Spanish

1433 SPANISH 1..... Grades 9, 10, 11, 12 Level 3—1 Credit

Prerequisite: None

This course emphasizes the acquisition of the basic skills of grammar and vocabulary. Students also practice pronouncing, reading, writing and listening to Spanish. Cultural material, read in Spanish, provides a framework for the language.

2424 SPANISH 2-HONORS Grades 9, 10, 11, 12 Level 4—1 Credit

Prerequisite: Average of 93% in 1433 Spanish 1 and department recommendation.

This course is a thorough review as well as a development of the skills learned in Spanish 1. The students will learn additional grammar and vocabulary. Level 4 is taught at a faster pace and students are required to speak, read, and write more extensively in Spanish. Students taking this course should plan to study Spanish for four years and possibly take the AP class their fourth year.

2433 SPANISH 2..... Grades 9, 10, 11, 12 Level 3—1 Credit

Prerequisite: 1433 Spanish 1

This course is a thorough review as well as a development of the skills learned in Spanish 1. The students will learn additional grammar and vocabulary.

3424 SPANISH 3-HONORS Grades 10, 11, 12 Level 4—1 Credit

Prerequisite: Average of 93% in 2424 Spanish 2-Honors or 2433 Spanish 2 and department recommendation

This course is designed as preparation for the student who plans to take the Spanish 4 honors class or Spanish AP. This class requires a more independent review of grammar as class time is used for discussion of readings and cultural materials. Class discussions are conducted in Spanish.

3433 SPANISH 3..... Grades 10, 11, 12 Level 3—1 Credit

Prerequisite: Average of 80% in 2424 Spanish 2-Honors or 2433 Spanish 2 and department recommendation

This course bridges the gap between the skill development programs of Spanish 1 and 2 and the advanced study of Spanish 4 by providing a realistically balanced program. Grammar review and culture are sensibly blended to appeal to students. Class will be conducted in Spanish and English. Students taking this course should plan to study Spanish for four years.

4425 AP SPANISH LANGUAGE Grades 11, 12 Level 5—1 Credit

Prerequisite: 3424 Spanish 3-Honors and department recommendation

This course, conducted almost exclusively in Spanish, is an extension of the 4434 Spanish 4, level 4. Considerable outside time and practice are required for students in this course. The students often acquire fluency as a result of the practice and experience. Students are encouraged to take the AP Exam.

4434 SPANISH 4-HONORS Grades 11, 12 Level 4—1 Credit

Prerequisite: Average of 93% in 3424 Spanish 3-Honors or 3433 Spanish 3 and department recommendation

This course, conducted almost exclusively in Spanish, offers practice in conversation, vocabulary development, and quick grammar review. Students read a variety of culturally relevant material encompassing numerous genres and thematic units. The course aims at developing a facility with the language so that real communication can take place.

44435 DC SPANISH 4 Grades 11, 12 Level 5—1 Credit

Prerequisite: Average of 93% in 3424 Spanish 3-Honors or 3433 Spanish 3 and department recommendation

This course covers the same curriculum as Spanish 4-Honors but is taken as dual credit through Thomas More University. Students may earn credit for Spanish 101 and 102 at Thomas More University through this course.

LONG RANGE CURRICULUM PLANNING SHEETS

FRESHMEN COURSES (NORMALLY 7 CREDITS)

Use these sheets to help in planning your course of studies for future years. Course numbers in these lists ending in a “3” are college preparatory level classes. Course numbers ending in a “4” indicate honors level. Honors courses are also indicated by the course name. Courses are one credit unless otherwise indicated
